Ecological Restoration and Domination -- 4. Independent Nature Denied -- 5. The Dark Side of Authenticity -- 6. Ethical Coda -- Epilogue. Fire Island, July 2012 -- References -- Index -- Blank Page -- Blank Page.
Sommario/riassunto	In this important and original interdisciplinary work, well-known environmental philosopher Eric Katz explores technology's role in dominating, and thus destroying, both nature and human life and society. Katz's work is a plea for the development of a technology that does not dominate and destroy but instead promotes autonomy and freedom.
