

1. Record Nr.	UNINA9910623979803321
Autore	Boukerche Azzedine
Titolo	Proceedings of the International Conference on Modeling Analysis and Simulation of Wireless and Mobile Systems on International Conference on Modeling Analysis and Simulation of Wireless and Mobile Systems / / Azzedine Boukerche, Carlo Giannelli, Zhi Sun
Pubbl/distr/stampa	New York : , : Association for Computing Machinery, , 2022
Descrizione fisica	1 online resource (232 pages)
Disciplina	621.384
Soggetti	Wireless communication systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	<p>Welcome to the 25th ACM International Conference on Modelling, Analysis, and Simulation of Wireless and Mobile Systems (MSWiM). This year, MSWiM will exceptionally be held online due to the COVID- 19 situation. Over the years, MSWiM has established itself as a leading venue where some of the best research works, trends, and directions in the area of modeling and performance evaluation of wireless and mobile systems are presented and discussed. The winner of this year's Reginald G. Fessenden Award will be announced at the ACM MSWiM 2022 closing session. This Award has been established eight years ago and it is granted to a distinguished researcher to recognize excellence and remarkable contributions in research work in the field of Wireless Communications and Mobile Networking. Along with the main conference program, four symposia will be held: MobiWac, DIVANet, PEWASUN and Q2SWinet. These symposia have become successful and competitive, covering new research trends and visionary work within mobile and wireless systems.</p>
