

1. Record Nr.	UNINA9910623982303321
Autore	Pasquale Liliana
Titolo	Proceedings of the ACM/IEEE 44th International Conference on Software Engineering : New Ideas and Emerging Results // Liliana Pasquale and Christoph Treude
Pubbl/distr/stampa	New York : , : Association for Computing Machinery, , 2022
Descrizione fisica	1 online resource (143 pages) : illustrations
Disciplina	004
Soggetti	Computer science Human-machine systems Software engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	NIER is a vibrant forum for forward-looking, innovative research in software engineering. Our aim is to accelerate the exposure of the software engineering community to early yet potentially ground-breaking research results, and to techniques and perspectives that challenge the status quo in the discipline.
