

1. Record Nr.	UNINA9910624308603321
Titolo	Proceedings of Indian geotechnical and geoenvironmental engineering conference (IGGEC) 2021 // edited by Arvind Kumar Agnihotri, Krishna R. Reddy, H. S. Chore
Pubbl/distr/stampa	Singapore : , : Springer, , [2023] ©2023
ISBN	981-19-4731-7
Descrizione fisica	1 online resource (401 pages)
Collana	Lecture Notes in Civil Engineering ; ; v.281
Disciplina	929.374
Soggetti	Engineering geology
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Organizing Committee -- Preface -- About the Institute -- About the Department -- About IGS Jalandhar Chapter -- Contents -- About the Editors -- Environmental Geotechnology -- Performance of Geosynthetic Encased Stone Columns in Sandwiched Solid Waste Layer at Saturation Condition -- 1 Introduction -- 2 Material Properties and Numerical Modeling -- 3 Results and Discussion -- 3.1 Load-Carrying Capacity -- 4 Conclusions -- References -- A Narrative Review on Emerging Nanobioremediation Toward Enhanced Environmental Sustainability -- 1 Introduction -- 2 Nanotechnology -- 2.1 Synthesis of Nanoparticles -- 3 Nano-Remediation: Solving Big Problems by Small Particles -- 4 Nanobioremediation: Integrating Nano and Bio for Sustainability -- 5 Conclusions -- References -- Effect of Hydrogen Sulfide on Microbial Methane Oxidation in Biochar-Amended Soil -- 1 Introduction -- 2 Materials and Methods -- 2.1 Materials -- 2.2 Methods -- 3 Results and Discussions -- 3.1 Gas Concentration Profiles -- 3.2 Methane Oxidation Rates -- 3.3 Microbial Community Distribution -- 3.4 Terminal Material Properties -- 4 Conclusion -- References -- Effects of Open Dumping of Municipal Solid Waste on Surrounding Soil Characteristics: A Review -- 1 Introduction -- 2 MSW Composition -- 3 Leachate Characteristics -- 4 Change in Soil Characteristics -- 5 Conclusion -- References -- Analysis of Landfill Leachate and Contaminated Groundwater: A Review

-- 1 Introduction -- 2 Landfill and Landfill Leachate -- 2.1 Landfill Overview -- 2.2 Characteristic of Leachate -- 2.3 Impact of Landfill Leachate on Environment and Human Health -- 3 Sampling and Analysis -- 4 Treatment Techniques -- 4.1 Leachate Treatment -- 5 Conclusion -- References -- The Potential of Chrysopogon Zizanioides (L.) Nash in Remediation of Heavy Metal-Contaminated Land-A Review -- 1 Introduction.
2 Literature Screening Process -- 2.1 Selection of Plant Growth Media -- 3 Soil, Water, and Sediment Contamination Procedure -- 4 Methodology for Research Work -- 5 Discussion -- 5.1 Vetiver with Heavy Metals -- 5.2 Accumulation of Metal Within Vetiver Grass -- 6 Concluding Remarks -- 6.1 Application of Vetiver System -- 7 Future Research Possibilities -- References -- Performance Evolution and Analytical Approach of Air Pollution Control System in Al Foundry -- 1 Introduction -- 1.1 Objective of the Air Pollution Control System for Secondary Al Recycling and Casting Process -- 2 Methodology -- 3 Result and Discussion -- 4 Conclusions -- Reference -- Recovery Techniques and LCA Involved with Municipal Solid Waste Bottom Ash Treatment: A Review -- 1 Introduction -- 2 Leaching Mechanism -- 3 Pre-treatment Techniques for MSWI Bottom Ash -- 3.1 Separation Processes -- 3.2 Solidification and Stabilization Technology -- 3.3 Thermal Treatment -- 4 Recovery -- 4.1 Metal -- 4.2 Energy -- 5 Life Cycle Assessment -- 6 Conclusions -- References -- Sustainable Uses of Sewage Sludge as a Construction Material-A Review -- 1 Introduction -- 2 Application of sewage sludge -- 2.1 Use of Waste Sludge in Bricks Production -- 2.2 Use of Waste Sludge in Cement Manufacturing -- 2.3 Use of Waste Sludge as Artificial Aggregate -- 2.4 Use of Waste Sludge in Concrete Mixtures -- 2.5 Sludge Water Uses in Concrete Mixtures -- 2.6 Waste Sludge Used for Ceramic and Glass Production -- 2.7 Properties of Building Materials Contained Sewage Sludge -- 3 Discussion -- 4 Conclusion -- References -- Enhanced Landfill Mining Waste Valorization Techniques: A Methodological Review -- 1 Introduction -- 2 Landfill Mining and Enhanced Landfill Mining -- 3 Methodological Review -- 3.1 Thermal Treatment Processes (Thermochemical Technologies) -- 3.2 Full Oxidative Combustion-Incineration.
3.3 Thermal Degradation-Pyrolysis -- 3.4 Thermal Gasification -- 3.5 Plasma Gasification and Vitrification -- 4 Advantages of Plasma Gasification -- 5 Landfill Mining Practices in India -- 6 Waste Characteristics and Composition -- 7 Indian Scenario of Solid Waste Management and Energy Production -- 7.1 Disposal Techniques Adopted -- 7.2 Waste to Energy Scenario/Statistics -- 8 Conclusion -- References -- A Comprehensive Review of Mass Transfer Phenomenon in Gas-Liquid Phase Flow During Aeration in Wastewater Treatment -- 1 Introduction -- 2 Theory -- 3 Literature Review -- 4 Conclusion -- References -- Recycled Waste Materials -- Utilization of Different Supplementary Cementitious Materials and Recycled Concrete Aggregate for Stabilization of Pavement Base Layer -- 1 Introduction -- 2 Materials -- 2.1 Aggregate -- 2.2 GGBS -- 2.3 Pond Ash -- 2.4 Cement -- 2.5 Sample Preparation and Tests -- 3 Experimental Outcomes and Discussions -- 3.1 Compaction Parameters -- 3.2 Strength Characteristics -- 4 Conclusions -- References -- Review on Fresh and Hardened Properties of Concrete Incorporating Silica Fume -- 1 Introduction -- 1.1 Self-Compacting Concrete -- 1.2 Need of Utilization of Silica Fume in Concrete -- 1.3 Advantages of Silica Fume in Concrete -- 2 Findings of Silica Fume -- 3 Objectives of the Study -- 4 Effect of Silica Fume on the Fresh Properties of Concrete -- 4.1 Workability Test -- 5 Effect of Silica Fume

on the Hardened Properties of Concrete -- 5.1 Compressive Strength -- 5.2 Flexural Strength -- 5.3 Split Tensile Strength -- 5.4 Permeability -- 5.5 Sulfate Resistance -- 6 Future Recommendations -- 7 Conclusion and Summary -- References -- Comparative Study of Internal Curing Techniques for Concrete -- 1 Introduction -- 2 Problems of Cracking -- 3 Internal Curing -- 4 Internal Curing Agents -- 5 Choosing Internal Curing Agents.

6 Conclusion -- References -- Recycling of Used Foundry Sand and Fly Ash in Concrete as a Partial Replacement for Conventional Ingredients -- 1 Introduction -- 2 Test Program -- 2.1 Material Used -- 2.2 Concrete Mix Design -- 2.3 Testing of Concrete -- 3 Results and Discussion -- 3.1 Compressive Strength -- 3.2 Flexural Strength -- 3.3 Slump -- 3.4 Splitting Tensile Strength -- 4 Conclusions -- References -- A Review on Influence of Replacing Industrial Wastes with Fine Aggregate in Concrete -- 1 Introduction -- 2 Properties of Industrial Wastes -- 3 Conclusions -- References -- Utilization of Fly Ash in Concrete: A State-of-the-Art Review -- 1 Introduction -- 2 Necessity of Utilizing Fly Ash in Geopolymer -- 3 Environmental Impact of Using Fly Ash in Concrete -- 4 Conclusions -- References -- Use of Waste Marble Dust and Waste Glass Powder and Bacterial Solution for Manufacture of Ecofriendly Concrete -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussion -- 4 Conclusions -- References -- Study on Suitability of Sawdust as an Alternate for Fine Aggregate in Concrete -- 1 Introduction -- 2 Materials -- 2.1 Cement -- 2.2 Fly ash -- 2.3 Water -- 2.4 Fine Aggregate -- 2.5 Coarse Aggregate -- 2.6 Sawdust Preparation -- 3 Method -- 3.1 Particle Size Grading -- 3.2 Mix Ratio -- 3.3 Concrete Preparation -- 3.4 For Sawdust Experimental Work -- 4 Results and Discussion -- 4.1 Particle Size Grading -- 4.2 Workability (Slump Test) -- 4.3 Compressive Strength -- 4.4 Flexural Strength -- 5 Conclusion -- References -- Study on Paving Blocks Using Plastic Waste -- 1 Introduction -- 2 Materials and Methods -- 2.1 Cement -- 2.2 Fine Aggregate -- 2.3 Coarse Aggregate -- 2.4 PVC -- 2.5 Test Data for Materials -- 3 Experimental Result -- 4 Conclusion -- References -- A Review on Applications of Steel Slag in Traditional and High-Strength Concrete.

1 Introduction -- 2 Production of Steel Slag -- 3 Mechanical Properties of Concrete with Steel Slag -- 4 Physical and Chemical Properties -- 5 Durability of Concrete with Steel Slag -- 6 Benefits of Utilization of Steel Slag -- 7 Conclusion -- References -- The Utilization of Industrial Waste as a Stabilizing Agent-A Review -- 1 Introduction -- 2 Pozzolanic Reaction -- 3 Effect of Industrial Waste on Geotechnical Properties of Soil -- 3.1 Coal Combustion Fly Ash (CFA) -- 3.2 Copper Slag -- 3.3 Granulated Blast Furnace Slag (GBS) -- 3.4 Cement Kiln Dust -- 3.5 Rice Husk Ash (RHA) -- 4 Conclusion -- References -- Sustainable Infrastructure Engineering and Others -- Characterisation of Microsurfacing Mix Design: A Review -- 1 Introduction -- 2 Motivation and Objective -- 3 Advantage of Microsurfacing -- 4 Disadvantage of Microsurfacing -- 5 Mix Design Practice for Microsurfacing -- 5.1 Material Selection -- 5.2 Aggregate Gradation -- 5.3 Emulsion -- 5.4 Mineral Filler and Additive -- 5.5 Mixing and Compaction -- 5.6 Effect of Variation of Components on Mix Properties -- 5.7 Variation in Aggregate Gradation -- 5.8 Use of Fly Ash in Microsurfacing -- 5.9 Use of Rubber Powder -- 5.10 Use of Waste Material in Microsurfacing Mix -- 6 Challenges in Microsurfacing Mix Procedure -- 7 Life Cycle Assessment and Environmental Impact of Microsurfacing -- 8 Summary and Conclusion -- 9 Future Recommendations -- References --

A Review on Microstructural Properties of Concrete Incorporating Different Mineral Admixtures -- 1 Introduction -- 2 Background -- 3 Manufacturing -- 4 Reactivity of Mineral Admixtures with Ordinary Portland Cement -- 5 Properties of Fresh Concrete on Different Mineral Admixtures -- 6 Conclusions -- References -- Evaluation of Mechanical Properties of Metakaolin Geo-Polymer Concrete -- 1 Introduction -- 2 Specimen Preparation -- 3 Observations. 4 Conclusions.
