

1. Record Nr.	UNINA9910624313803321
Titolo	Advances in Management, Business and Technological Systems : Road Towards Sustainable Development / / edited by Irina Samoylenko
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023
ISBN	9783031208034 9783031208027
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (191 pages)
Collana	Lecture Notes in Networks and Systems, , 2367-3389 ; ; 582
Disciplina	338.927019
Soggetti	Engineering mathematics Engineering - Data processing Mathematical and Computational Engineering Applications Data Engineering
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Includes index.
Nota di contenuto	Forecasting Methods as a Tool for Strategic Planning of Sustainable Development of an Agrarian Enterprise -- Development of a Model for System Management of the Regional Entrepreneurial Ecosystem Factors -- Achieving Sustainable Growth of the Grain Product Subcomplex Production on the Basis of the Formation and Development of the Integrated Structures -- Designing a Model of Cryptosecurity of Information in the System of Countering the Spread of COVID-19 -- Ensuring Economic Security and Sustainable Development of the Southern Region of Russia -- The Increase of Labour Efficiency and Innovative Regionalization in Russia -- The Development of Social and Industrial Infrastructure of the Agro-Industrial Complex as a Significant Indicator of the Sustainable Development of the Industry -- Informational and Analytical Support for the Sustainable Development of Agribusiness Enterprises -- Human capital development in rural areas from the standpoint of the Sustainable Development Goals (SDGs).
Sommario/riassunto	Economic development, social sustainability, and environmental protection play a major role in terms of efforts for innovation,

digitalization, business, and global development. Today, nations all over the world attempt to accomplish the United Nations Sustainable Development Goals and to ensure sustainable patterns. Combining empirical and theoretical information, this book demonstrates advanced initiatives and concrete examples from universities, research institutes, and companies, regarding cross-cutting issues in sustainable development of a wide range of fields. The major focus in the book is the promotion of quality of life, by means of a more sustainable food production, and improved food security. Additionally, the importance of digital technologies, business policy, social aspects, and corporate governance in ensuring sustainable regional development is studied. This book is a truly interdisciplinary publication, useful to scholars, social movements, practitioners, and members of governmental agencies and private companies.
