Sommario/riassunto	This volume addresses the rapid growth of China's cultural industry and its significant cultural and economic impact on the country. It considers what exactly constitutes the cultural industry, defining the

basis for discussions on issues as the internal tensions constraining China's cultural industry development. It examines the place of culture and cultural industry in relation to China's overall development, and what kinds of strategies, policies and concrete measures are most effective in promoting the industry's growth, exploring the role of Government in Cultural Industrial Development.
