Sommario/riassunto	This is a quick reference guide to meet the increasing demand from small animal veterinarians to treat the farm animals of local hobby farmers, small holders and people with novelty pets. The coverage includes popular animals such as cattle, sheep, goats, South American Camelids and backyard poultry. It includes practical methods and covers techniques of anaesthesia, clinical examination, breeding and reproduction surgery and euthanasia. It is suitable for practising small animal veterinarians and veterinary and animal management higher level students.
