

1. Record Nr.	UNINA9910627255403321
Autore	Yang Jin
Titolo	Installation methods of offshore oil-gas well conductor // Jin Yang
Pubbl/distr/stampa	Gateway East, Singapore : , : Springer, , [2023] ©2023
ISBN	981-19-5685-5
Descrizione fisica	1 online resource (174 pages)
Disciplina	622.3381
Soggetti	Offshore gas well drilling Offshore gas well drilling - Law and legislation Offshore oil well drilling
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Preface -- Contents -- 1 Functions of the Oil-Gas Well Conductor and Wellhead Structure -- 1.1 Functions of Oil-Gas Well Conductor -- 1.1.1 Functions of Exploration Well Conductor -- 1.1.2 Functions of Development Well Conductor -- 1.2 Oil-Gas Wellhead Structure -- 1.2.1 Conductor Structure of the Wellhead Above the Sea -- 1.2.2 Conductor Structure of Subsea Wellhead -- 1.3 Common Oil-Gas Wellhead Equipment -- 1.3.1 Technical Requirements of Wellhead Equipment -- 1.3.2 Common Wellhead Equipment -- References -- 2 Drilling-In Installation of Oil-Gas Well Conductor -- 2.1 Drilling-In Installation of Conductor -- 2.1.1 Drilling-In Construction Method of Conductor -- 2.1.2 Conductor Construction Method for Wellhead Above the Sea -- 2.1.3 Precautions for Construction -- 2.2 Main Equipment -- 2.2.1 Driving System -- 2.2.2 Rotating System -- 2.2.3 Hoisting System -- 2.2.4 Wellhead and Downhole Tools -- 2.3 Suitable Conductor Setting Depth Design -- 2.3.1 Load Analysis of Oil-Gas Well Conductor -- 2.3.2 Calculation Models of Conductor Bottom Ultimate Bearing Capacity -- 2.3.3 Calculation Models of Conductor's Lateral Friction of Oil-Gas Well Conductor -- 2.3.4 Calculation of Suitable Conductor Setting Depth -- 2.4 Application Case Analysis -- 2.4.1 Oil Field Base Information -- 2.4.2 Suitable Depth Below Mud Line Design of Oil-Gas Well Conductor -- 2.4.3 Check Analysis of Conductor

Stability -- References -- 3 Piling Installation of Oil-Gas Well
Conductor -- 3.1 Piling Installation Technology of Conductor -- 3.1.1
Piling Construction Technology -- 3.1.2 Precautions for Construction
-- 3.2 Main Equipments -- 3.2.1 Piling Equipments -- 3.2.2 Lifting
Equipment -- 3.2.3 Conductor Shoe -- 3.3 Reasonable Setting Depth
Design -- 3.3.1 Load Analysis of Oil-Gas Well Conductor -- 3.3.2
Calculation of Conductor Bottom Ultimate Bearing Capacity.
3.3.3 Calculation of Pile Driving Resistance -- 3.3.4 Calculation
of Conductor Setting Depth -- 3.3.5 Calculation of Penetration Length
-- 3.3.6 Calculation Model of Hammering Number -- 3.4 Application
Case Study -- 3.4.1 Basic Information of Oil Field -- 3.4.2 Design
of Depth of Conductor into Mud -- 3.4.3 Check and Analysis
of Conductor Stability -- 3.4.4 Selection of Pile Hammer -- References
-- 4 Jetting Installation Method of Oil-Gas Well Conductor -- 4.1
Jetting Installation Method of Conductor -- 4.1.1 Jetting Construction
Method -- 4.1.2 Precautions for Jetting Installation -- 4.2 Main
Equipment -- 4.2.1 Driving System and Drill String -- 4.2.2 CADA Tool
-- 4.3 Design of the Setting Depth of Conductor -- 4.3.1 Load Analysis
of the Conductor -- 4.3.2 Calculation of Bearing Capacity of Conductor
-- 4.3.3 Calculation Method of the Setting Depth of Conductor -- 4.4
Optimal Design of Jetting Installation of Conductor -- 4.4.1 Optimal
Design of Jetting Drilling Pressure -- 4.4.2 Design of Jetting
Displacement -- 4.4.3 Design of Bit Protrusion -- 4.4.4 Determination
of Release Waiting Time-Window -- 4.5 Application Case Analysis --
4.5.1 The Ultimate and Real-Time Bearing Capacity of Conductor --
4.5.2 Safe Depth of Conductor into Mud in Jetting Installation Method
-- 4.5.3 Safe Waiting Time of Surface Conductor -- References -- 5
Adaptability of Installation Method of Offshore Conductors -- 5.1
Technical Adaptability of Drilling-In Installation Method of Conductor
-- 5.2 Technical Adaptability of Piling Installation Method of Conductor
-- 5.3 Technical Adaptability of Jetting-Down Installation Method
of Conductor.
