Sommario/riassunto	This book presents interdisciplinary research and scientific outcomes in sustainable development acquired from the BHAAAS International Conference on Sustainable Development-ICSD2022 as part of the 13th Days of Bosnian-Herzegovinian American Academy of Arts and Sciences held in Sarajevo, June 23-26, 2022. The main event enabled researchers and experts from 25 countries to exchange their knowledge, ideas and experiences. The general scope of the book includes topics presented at three specialized symposia: The Quadruple Helix Approach, Sustainable Urban Development and Sustainable Civil Engineering with research topics ranging from SDGs, sustainable development education, environmental and social responsibility and consumption to sustainable retrofit strategies, urban heritage conservation, urban mobility, Space Syntax analysis, watercourse recovery, railway corridors and more. The book is recommended for

fellow researchers, professionals, and students in the fields of economy, politics, architecture, urban planning, civil engineering and related fields.
