

1. Record Nr.	UNINA9910627257703321
Titolo	Farm machinery and processes management in sustainable agriculture // Simone Pascuzzi and Francesco Santoro, editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer Nature Switzerland AG, , [2023] ©2023
ISBN	3-031-13090-1
Descrizione fisica	1 online resource (366 pages)
Collana	Lecture notes in civil engineering ; ; Volume 289
Disciplina	631.3
Soggetti	Farm equipment Agricultural machinery Sustainable agricultur
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Preface -- Contents -- The Structure of Engine Power of Agricultural Tractors Registered in Poland Between 2010 and 2020 -- 1 Introduction -- 2 Research Method -- 3 Results and Discussion -- 4 Conclusions -- References -- Tillage Quality and Draught Force of a Novel Plough Concept with Cambered Disc -- 1 Introduction -- 2 Materials and Methods -- 2.1 Site Description -- 2.2 Design of the Hybrid Plough -- 2.3 Experimental Design -- 2.4 Tillage Quality Assessment -- 2.5 Draught Force Measurement -- 2.6 Statistical Analysis -- 3 Results and Discussion -- 3.1 Tillage Quality -- 3.2 Draught Force -- References -- Theoretical Study of the Trajectory of Movement of a Ploughing Aggregate with a Reversible Plough on the Headlands -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussion -- 4 Conclusions -- References -- Research of the Possibilities to Improve the Quality of Potatoes Harvesting by Including an Experimental Heap Leveler-Distributor in the Design of Harvesting Machines -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussion -- 4 Conclusions -- References -- Theoretical Studies of the Relationship Between the Parameters of the Bridge Tractor and the Engineering Area of the Field -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussion -- 4 Conclusions -- References -- Research into Power and Load

Parameters of Flexible Screw Conveyors for Transportation of Agricultural Materials -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussion -- 4 Conclusions -- References -- Assessment of a Big Square Baler Able to Reduce Soil Impurities During Baling Process. First Evaluations -- 1 Introduction -- 2 Cicoria HD 1270 Baler -- 3 Materials and Methods -- 4 Results and Discussion -- 5 Conclusions -- References -- The Methane Potential of Corn Cob Cores -- 1 Introduction. 2 Materials and Methods -- 2.1 Corn Cobs Cores and Its Characteristics -- 2.2 Laboratory Investigations -- 2.3 Methane Yield -- 2.4 Energetic Calculations -- 3 Results -- 3.1 Physical Properties and Chemical Composition of Corn Cob Cores -- 3.2 Biogas and Methane Yield -- 3.3 Energetic Calculations -- References -- Energy Comparison of Corn Stover Fraction -- 1 Introduction -- 1.1 Challenges for Energy -- 1.2 Agriculture Biomass -- 2 Materials and Methods -- 2.1 Corn Stover Fraction and Its Characteristics -- 2.2 Laboratory Investigations -- 2.3 Combustion Heat and Calorific Value -- 2.4 Statistical Analysis -- 3 Results -- 3.1 Physical and Chemical Properties of Corn Stover Fractions -- 3.2 Heat of Combustion and Calorific Value -- References -- Economic Effects of Food Industry Waste Management in the Context of Sustainable Development -- 1 Introduction -- 2 Types of Waste and their Economic Aspects of Use -- 3 Conclusions -- References -- Ranking of Plant Biomass by Fuel Value Index -- 1 Introduction -- 2 Material and Methods -- 3 Results -- 4 Conclusions -- References -- Energetic Potential of Dairy Cow Breeding in Poland -- 1 Introduction -- 1.1 Climate and Agriculture -- 1.2 Animal Production -- 1.3 Mechanism of Emission from Manure -- 1.4 Manure as a Substrate for Biogas Plants -- 2 Materials and Methods -- 2.1 Manure and its Characteristics -- 2.2 Energetic Calculations -- 3 Results -- 3.1 Dairy Cow Production -- 3.2 Energetic Calculations -- References -- Effect of Mechanical Treatment on the Efficiency of Methane Fermentation of Biowaste -- 1 State of the Art -- 1.1 A Subsection Sample -- 1.2 Municipal Waste Collection -- 1.3 The Biowaste Management -- 2 Materials and Methods -- 2.1 Materials -- 3 Results -- 3.1 Waste Characteristics -- 3.2 Waste Parameters -- 4 Conclusions -- References. Effect of Nozzle Condition and Type in the Spray Quality in Wheat Plants -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussion -- 4 Conclusions -- References -- Problems with System of Sprayers Testing in Poland Based on 20 Years of Experience -- 1 Introduction -- 2 Actual Situation -- 3 Formulated Initiatives and Problems -- 4 Conclusions -- References -- Changes in Soil pH and Their Influence on Sustainable Development in the Agriculture -- 1 Introduction -- 2 Materials and Methods -- 3 Results -- 4 Discussion -- 5 Conclusions -- References -- Phosphorus Balance Trend in Albania Agriculture During the Period 1950-2019 -- 1 Introduction -- 2 Materials and Methods -- 2.1 Study Area -- 2.2 Phosphorous Balance Approach -- 3 Results and discussion -- 3.1 Inflow and Outflow Trends in Albania Agriculture -- 3.2 Phosphorous Balance Trend in Albania Agriculture -- 3.3 Phosphorus Use Efficiency -- 4 Conclusion -- References -- Applicability and Efficiency of Remote Monitoring of Agricultural Crops -- 1 Introduction -- 2 Related Works -- 2.1 Overview -- 3 Real Content -- 4 Results -- 5 Conclusion -- References -- Image Analysis in the Assessment of Homogeneity of Fine-Grained Mixtures -- 1 Introduction -- 2 Materials and Methods -- 3 Results -- 4 Discussion -- 5 Conclusions -- References -- The Use of Farm Digital Tools in Crop Production in Wallonia: Situation, Key Points and Actors -- 1 Introduction -- 2 The General Context -- 2.1

The European Framework -- 2.2 The Regional Policy About Digitalization -- 2.3 Smart Farming Projects -- 3 Methodology -- 4 Key Actors -- 5 The Current Situation -- 6 Key Questions for a Larger Adoption of Digital Tools by Crop Farmers -- 6.1 Profitability of Digital Tools -- 6.2 Personal Data Protection -- 6.3 Time Needed for Training -- 6.4 The Complexity of Digital Tools. 6.5 The Lack of Interconnection Between the Existing Tools/Machines -- 6.6 Adequation Between the Tools Available on the Market and Farmers' Needs -- 6.7 Existence of Good Training Facilities -- 7 Conclusions -- References -- Effect of Digestate Fertilization on the Quality of Beans -- 1 Introduction -- 2 Method -- 3 Results -- 4 Discussions -- 5 Conclusions -- References -- Online Pest Warning System-Support for Agriculture and Transfer from Science to Practice -- 1 Introduction -- 2 Material and Methods -- 3 Summary -- References -- Selected Problems on Data Used in Precision Agriculture -- 1 Introduction -- 2 Objectives and Material of Study -- 3 Data Requirements in Modern Agriculture -- 4 Risks and Threats Related to Data in Precision Agriculture -- 5 Data Sharing Principles and Codes of Practice -- 6 Conclusions -- References -- Estimation of Workload Level of Dynamic and Static Warehouse Assemblers in Logistic and Ergonomic Aspect -- 1 Introduction -- 2 Methods -- 2.1 OWAS -- 2.2 Lehmann's Tabular-Chronometric Method -- 3 Results and Analysis -- 3.1 Characteristics of the Position -- 3.2 Ergonomic Diagnosis in the Aspect of Logistic Engineering -- 3.3 Photograph of a Working day Assembler -- 3.4 Analysis of the Lehmann's Tabular-Chronometric Method -- 3.5 Calculations -- 3.6 OWAS Method Analysis -- 3.7 Body Position of the Assembler -- 4 Conclusion -- References -- Monitoring Agrometeorological Factors and Weight of the Bee Hive During Black Locust (*Robinia pseudoacacia*) Flowering -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussions -- 4 Conclusions -- References -- The Impact of Allelic State of *dhn1* and *rsp41* Genes on Grain Moisture Content of Maize Hybrids Within Marker Assisted Selection (MAS) for Drought Resistance -- 1 Introduction -- 2 Materials and Methods -- 2.1 Plant Material -- 2.2 Laboratory Experiment. 2.3 Field Experiment and Weather Conditions -- 2.4 Statistical Analysis -- 3 Results and Discussions -- 4 Conclusions -- References -- Pollen Concentration of *Ailanthus Altissima* on the South Transdanubia Region in Hungary -- 1 Introduction -- 2 Materials and Methods -- 3 Results and Discussions -- 3.1 Pollen Data for Somogy County -- 3.2 Pollen Data for Tolna County -- 3.3 Pollen Data for Baranya County -- 4 Conclusions -- References -- Social Networks for Sustainable Development in Greece: The Case of Messenia -- 1 Introduction -- 2 Theoretical Framework -- 3 Materials and Methods -- 3.1 Methodology -- 3.2 Case Description -- 4 Results -- 4.1 Data Analysis -- 4.2 Sustainable Agriculture and Networks Resilience -- 5 Discussion -- 6 Conclusion -- References -- The Prospects of Using Vegetable Oil in the Building Industry -- 1 Introduction -- 2 Materials and Methods -- 2.1 Research Subject -- 2.2 Analysis of Rapeseed Oil Parameters -- 2.3 Biodegradability Testing -- 2.4 Measurements of Surface Tension and Contact Angle -- 3 Results -- 3.1 Vegetable Oil Analysis -- 4 Conclusions -- References -- The Problem of Waste on the Food Market -- 1 Introduction -- 2 The Issue of Wasting Food -- 3 Reasons for Food Waste -- 4 Material and Method -- 5 Results and Discussion -- 6 Conclusion -- References -- Technical and Social - Economic Impact and Remedy of a Large-Scale Mechanized Plantation Farming on the Host Community -- 1 Introduction -- 2 Methodology -- 2.1 Project Study Location and the Host Community -- 2.2 Company Organization of Sunti Golden Sugar Estates -- 2.3 Findings -- 3 Results

and Discussion -- 3.1 Steps Taken to Solve Disturbances of the Host Communities from 2015 to 2017 on the Company's Presence and Operations -- 3.2 Environmental Condition of the Location for Sugarcane Cultivation and Processing.
3.3 Determined Tractor/Equipment Power Ratings, Draft and Capacity for Field Operations of 1,300 ha Sunti Farm for 2018 Cropping Season.
