1. Record Nr. UNINA9910627279603321

Titolo	Applications of decision science in management : proceedings of International Conference on Decision Science and Management (ICDSM 2022) / / edited by Taosheng Wang, [and three others]
Pubbl/distr/stampa	Singapore : , : Springer, , [2023] ©2023
ISBN	981-19-2768-5
Descrizione fisica	1 online resource (617 pages)
Collana	Smart Innovation, Systems and Technologies ; ; v.260
Disciplina	733
Soggetti	Decision making - Data processing
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Intro -- Preface -- Contents -- About the Editors -- Decision Support Systems -- Enterprise Performance Management Optimization Based on Big Data -- 1 The Role of Big Data in the Optimization of Enterprise Performance Management -- 2 Problems Existing in the Implementation of Enterprise Performance Management in the Context of Big Data -- 3 Optimize the Path of Enterprise Performance Management -- 3.1 Improve Enterprise Human Resource Management Mode -- 3.2 Improve Performance Management Awareness -- 3.3 The Construction of Information System -- 3.4 Big Data Technology Should Be Combined with Business Philosophy -- 3.5 Establish a Corporate Culture System Matching Big Data Performance Management -- 4 Conclusion -- References -- The Study on Optimal Green Supply Chain of New Energy Vehicles -- 1 Introduction -- 2 Model Construction and Analysis -- 2.1 Model Assumptions -- 2.2 Model Construction -- 2.3 Single Factor Allocation Scheme -- 2.4 Comprehensive Factors Benefit Distribution Plan -- 3 Rationality and Feasibility Analysis of the Model -- 3.1 Overview of the Case Enterprise and Profit Distribution -- 3.2 Calculation of Profit Distribution of Case Enterprise and Supply Chain Benefit Distribution of Single Factor -- 3.3 Profit Distribution of Comprehensive Factors -- 3.4 Comparative Analysis of Benefit Distribution Results -- 4 Conclusion and Recommendations -- References -- Research

on the Application of Big Data Technology in the Process of Cross-Border E-Commerce Product Selection -- 1 The Basic Cognition of Big Data Technology in Cross-Border E-Commerce Field -- 1.1 Conceptual Recognition of Big Data Technology -- 1.2 The Application Value of Big Data in Cross-Border E-Commerce -- 2 The Main Problems of Cross-Border E-Commerce Product Selection -- 2.1 Isolated Data Islands -- 2.2 Product Homogenization.
2.3 Localization of Product Selection -- 3 Data Dimension Analysis When Big Data Technology Is Applied to Cross-Border E-Commerce Product Selection -- 3.1 Data Dimension Analysis on Cross-Border E-Commerce Platforms -- 3.2 Dimensional Analysis of Cross-Border E-Commerce Customer Data -- 4 Cross-Border E-Commerce Product Selection Strategies Using Big Data Technology -- 4.1 Determine the Product Line on the Cross-Border E-Commerce Platforms -- 4.2 Determine the Target Customer Group -- 4.3 Combine Marketing and Promotion Strategies -- 5 Prospects of Applying Big Data Technology to Cross-Border E-Commerce Product Selection -- References -- Construction of a Decision Model for the Evaluation System of Practical Teaching Quality Based on AHP -- 1 Introduction -- 2 General Situation of the Practical Teaching Mode of Vocational Education -- 2.1 General Situation of Foreign Vocational Education Practice Teaching Mode -- 2.2 General Situation of Practical Teaching Mode in Domestic -- 3 Analysis of the Quality Evaluation of Practical Teaching -- 4 AHP Model Overview -- 4.1 Construct the Hierarchical Model -- 4.2 Construct a Pairwise Comparison Judgment Matrix and Assign Values -- 4.3 Hierarchical List Sorting and Consistency Check -- 4.4 Level Total Ranking and Consistency Test -- 5 Construction of Evaluation System of Practical Training -- 5.1 Constructing the Evaluation Model -- 5.2 Constructing the Evaluation Index System of Practical Teaching Quality -- 5.3 Scoring Criteria for Secondary Indicators -- 6 Conclusion -- References -- Live Stream and Willingness to Buy: The Interactivity Between Loneliness and Para-social Interaction -- 1 Introduction -- 2 Literature Review and Research Hypothesis -- 2.1 Literature Review -- 2.2 Research Hypothesis -- 3 Study I -- 3.1 Study Design and Process -- 3.2 Data Results and Discussion -- 4 Study II.
4.1 Study Design and Process -- 4.2 Data Results and Discussion -- 5 Conclusions and Discussion -- 5.1 Conclusion -- 5.2 Theoretical Contributions -- 5.3 Management Implications -- 5.4 Research Shortcomings and Future Perspectives -- References -- Research on Support Capability Evaluation of Road Emergency Transport Support Series Equipment Based on Disaster Condition Emergency Transport Task -- 1 Introduction -- 2 Equipment Support Capability Model Based on Disaster Conditions -- 2.1 Equipment Support Task Analysis -- 2.2 Equipment Support Capability Indicators -- 3 Fuzzy Comprehensive Evaluation Model -- 3.1 Determine the Factor Domain of the Evaluation Object -- 3.2 Determine the Grading Theory Domain of Comments -- 3.3 Establish Fuzzy Relation Matrix -- 3.4 Determine the Weight Vector of Evaluation Factors -- 3.5 Synthesize the Fuzzy Comprehensive Evaluation Result Vector -- 4 Application Analysis of Road Emergency Transport Equipment Support Capability -- 4.1 Weight Analysis -- 4.2 Quantitative Analysis of Indicators -- 4.3 Evaluation Results -- 5 Conclusion -- References -- Research on Emergency Decision-Making Ability of College Student Management Team Based on Prospect Theory -- 1 The Basic Model and Applicability Analysis of Prospect Theory -- 1.1 Basic Model of Prospect Theory -- 1.2 Analysis of the Applicability of Prospect Theory in the Emergency Decision-Making Ability of College Student Management Teams -- 2 The Status Quo

of Emergency Management Decision-Making of College and University Student Teams Based on Prospect Theory -- 2.1 The Pre-prevention and Response to Emergency Management in Colleges and Universities Is Insufficient -- 2.2 Improper Response to Emergency Management in Colleges and Universities -- 2.3 The Ability of Colleges and Universities to Guide Emergency Management After the Fact Is Weak.
3 The Impact and Challenge of Emergencies on the Decision-Making Ability of Emergency Management in Colleges and Universities -- 3.1 Impact on the Organization of Early Warning Emergency Monitoring and Emergency Decision-Making -- 3.2 Challenges to Emergency Management Work Plans, Decision-Making Ability and Working Procedures -- 4 Optimize the Path of Emergency Management for University Student Management Team to Deal with Emergencies -- 4.1 Improve the Emergency Decision-Making Management Organization and the Emergency Decision-Making System -- 4.2 Prevent Online Public Opinions of Emergencies, Improve Work Plans and Standardize Decision-Making Procedures of Emergency Management -- 4.3 Unblock Emergency Information Channels, Do a Good Job in Summarizing Afterward, and Restore Campus Order -- References -- Analysis on the Present Situation and Countermeasures of Employment Decision-Making of College Graduates -- 1 Introduction -- 2 Current Situation of College Graduates' Employment Decision-Making -- 3 Analysis and Integration of Related Research -- 4 Problems Existing in Employment Decision-Making of College Graduates -- 4.1 Cognitive Limitations -- 4.2 Insufficient Employment Information Obtained -- 4.3 Lack of Ability to Make Employment Decisions -- 5 Effective Countermeasures for Employment Decision-Making of College Graduates -- 5.1 Improve the Metacognitive Level of Graduates -- 5.2 Broaden Access to Employment Information -- 5.3 Broaden Access to Employment Information -- 6 Research Implications and Prospects -- References -- Research on Multi-objective Decision Making of Hydropower Station Group Based on CRITIC-TOPSIS Method -- 1 Introduction -- 2 Principle -- 2.1 Comprehensive Evaluation Method Based on CRITIC Weight -- 2.2 Distance-Based Multi-objective Decision-Making Method -- 3 Methods and Procedures.
3.1 Index Weight Is Obtained Through CRITIC -- 3.2 Solution Ranking Preferences Using the TOPSIS Method -- 4 Case Analysis -- 4.1 Determination of Evaluation Indicators and Attribute Values -- 4.2 Program Evaluation Results -- 4.3 Comparative Analysis of Results with Traditional Multi-objective Decision-Making Methods -- 4.4 Further Preferences in Context -- 5 Conclusion -- References -- Analysis of Influencing Factors of Resident Consumption Level and Establishment of Decision-Making Management Mechanism-Taking Shaanxi Province as an Example -- 1 Research Background -- 1.1 Research Purpose and Significance -- 1.2 Research Contents and Methods -- 2 Current Consumption Level of Residents in Shaanxi Province -- 2.1 Empirical Analysis -- 2.2 Parameter Estimation of the Model -- 2.3 Correlation Analysis -- 3 Analysis Results and Conclusions -- 4 Establish a Scientific Decision-Making Management Mechanism -- 4.1 Developing Industries with Distinctive Features -- 4.2 Narrow the Gap Between Rich and Poor -- 4.3 The Country Should Enhance the Willingness to Consume -- References -- Research on Social Atomization Risk and Governance Decision Making in Emerging Community -- 1 Research Status of Social Atomized and Complex Agent Network Models -- 1.1 Research Status of Social Atomization -- 1.2 Research Status of Complex Agent Network Models -- 1.3 Comprehensive Review -- 2 Investigation and Hypothesis

of Atomization of Emerging Community Society -- 2.1 Assumption of Model Construction -- 2.2 Artificial Network Social Evolution Simulation Process -- 2.3 Countermeasure Pilot Experiment and Simulation Test -- 3 Summary and Analysis -- References --
An Empirical Study on the Influence of Internal Control Environment on the Quality of Accounting Information of Listed Companies -- 1 Introduction.
2 The Theoretical Basis of the Influence of Internal Control Environment on Accounting Information Quality.
