

1. Record Nr.	UNINA9910627290303321
Titolo	Fruit ripening : physiology, signalling and genomics // edited by Pravendra Nath [and three others] ; contributors, Agnes Ageorges [thirty-eight others]
Pubbl/distr/stampa	Wallingford, England ; ; Boston, Massachusetts : , : CABI, , 2014 ©2014
ISBN	1-84593-963-8
Descrizione fisica	1 online resource (339 p.)
Disciplina	634 634.0441
Soggetti	Fruit - Ripening
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references at the end of each chapters and index.
Nota di contenuto	Contents; Contributors; Preface; PART I. PHYSIOLOGY AND METABOLISM; 1. Climacteric and Non-climacteric Ripening; 2. Fruit Ripening: Primary Metabolism; 3. Cellular, Metabolic and Molecular Aspects of Chromoplast Differentiation in Ripening Fruit; 4. Cell-wall Metabolism and Softening during Ripening; 5. Aroma Volatiles; 6. Making the Surface of Fleshy Fruit: Biosynthesis, Assembly and Role of the Cuticular Layer; PART II. FRUIT NUTRITIONAL QUALITY; 7. Antioxidants and Bioactive Compounds in Fruits; 8. Vitamins in Fleshy Fruits; 9. Polyphenols PART III. SIGNALLING AND HORMONAL CONTROL OF FRUIT RIPENING 10. Ethylene Biosynthesis; 11. Ethylene Perception and Signalling in Ripening Fruit; 12. Other Hormonal Signals during Ripening; PART IV. GENETIC AND EPIGENETIC CONTROL OF FRUIT RIPENING; 13. Genetic Diversity of Tropical Fruit; 14. Natural Diversity and Genetic Control of Fruit Sensory Quality; 15. Ripening Mutants; 16. Biotechnology of Fruit Quality; 17. Insights into Plant Epigenome Dynamics; 18. Functional Genomics for the Study of Fruit Ripening and Quality: Towards an Integrative Approach; Index; A; B; C; D; E; F; G; H; I; J; L MN; O; P; Q; R; S; T; V; X

Sommario/riassunto

Fruit ripening is an important aspect of fruit production. The timing of it affects supply chains and buying behaviour, and for consumers ripeness not only affects perceptions of health but has nutritional effects too. Ripeness is closely related to spoilage which has a major financial impact on agricultural industries. Currently there are fast moving developments in knowledge of the factors affecting fruit ripeness, and this up-to-date monograph seeks to draw together the disparate research in this area. The aim of the book is to produce a comprehensive account covering almost every area rela
