

1. Record Nr.	UNINA9910627294803321
Autore	Viridiana Ike
Titolo	Trichoderma : ganoderma disease management in oil palm : a manual / / Ike Viridiana [and four others]
Pubbl/distr/stampa	Wallingford, Oxfordshire, England ; ; Boston, Massachusetts : , : CABI, , [2019] ©2019
ISBN	1-78924-146-4 1-78924-147-2
Descrizione fisica	1 online resource (129 pages) : illustrations
Collana	Techniques in plantation science ; ; 16
Disciplina	579.5677
Soggetti	Trichoderma
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	"This is a hand-on practical guide to the use of Trichoderma as a biocontrol for Ganoderma disease in oil palm plantations. The manual provides background information on the benefits of Trichoderma fungi as well as on Ganoderma (Basal Stem Rot), the most devastating disease of oil palm in South East Asia. The disease is caused by the soil-borne fungus, Ganoderma spp and is also found in West Africa and South America"--
