Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Arthropod pests and their natural enemies on horticultural crops in tropical Asia -- Pests of major vegetable crops -- Pests of minor vegetable crops -- Pests of major fruit crops -- Pests of minor fruit crops -- Pests of other crops.
Sommario/riassunto	Agriculture plays a pivotal role in the economy of tropical Asia, but arthropod pests are major constraints to production. This book consolidates the research on pests of South and Southeast Asia, providing useful data for the establishment of sustainable pest management programs. It covers the main arthropod pests of twenty five major crops, with colour photographs of their adult and immature stages, their distribution, biology, disease vectors, symptoms of the damage they cause and their natural enemies. It is suitable for researchers, practitioners and policy makers of entomology, pest cont
