

1. Record Nr.	UNINA9910629301203321
Autore	Behrends Ehrhard <1946->
Titolo	Tilings of the plane : from Escher via Mobius to Penrose // Ehrhard Behrends
Pubbl/distr/stampa	Wiesbaden, Germany : , : Springer, , [2022] ©2022
ISBN	9783658388102 9783658388096
Descrizione fisica	1 online resource (284 pages)
Collana	Mathematics study resources ; ; Volume 2
Disciplina	516.132
Soggetti	Tessellations (Mathematics) Mosaics (Matemàtica) Llibres electrònics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Intro -- Preface -- Contents -- 1 Introduction -- Part I Looking over Escher's Shoulder -- 2 Symmetries and Fundamental Domains -- 2.1 What is Symmetry? -- 2.2 What Movements are There? -- 2.3 Groups of Movements -- 2.4 Discontinuous Groups and Fundamental Domains -- 3 The Discontinuous Symmetry Groups of the Plane -- 3.1 How Many Different Groups of Movements are There? -- 3.2 Finite Groups of Movements -- 3.3 The Subgroup of Translations -- 3.4 The 7 Frieze Groups -- 3.4.1 : Only Translations -- 3.4.2 : Only Reflections of Type 1 () -- 3.4.3 : Only Reflections of Type 2 () -- 3.4.4 : Proper Glide Reflections () -- 3.4.5 : Only Rotations () -- 3.4.6 : Rotations, Type-1 and Type-2 Reflections () -- 3.4.7 : Proper Glide Reflections, Type-2 Reflections, and Rotations () -- 3.4.8 Summary -- 3.4.9 Classification: A Test -- 3.4.10 Hints for Artists -- 3.5 The 17 Plane Crystal Groups -- 3.5.1 The Crystallographic Restriction -- 3.5.2 Translations, Reflections: 4 Groups -- 3.5.3 Translations, 2-Rotations, Reflections: 5 Groups -- 3.5.4 Translations, 3-Rotations, (Glide) Reflections: 3 Groups -- 3.5.5 Translations, 4-Rotations, Reflections: 3 Groups -- 3.5.6 Translations, 6-Rotations, Reflections: 2 Groups -- 3.5.7 Classification: A Test -- 4 The Heesch Constructions -- 4.1 Lattices

and Nets -- 4.2 The Heesch Construction: Motivation -- 4.3 The
 Heesch Constructions: 28 Methods -- References for Part I -- Part II
 Möbius Transformations -- 5 Möbius Transformations -- 5.1 Complex
 Numbers: Some Reminders -- 5.2 Möbius Transformations: Definitions
 and First Results -- 5.3 Möbius Transformations and Circles -- 5.4
 Fixed Points of Möbius Transformations -- 5.5 Conjugate Möbius
 Transformations -- 5.6 Characterization: Fixed Points in $\{0, \infty\}$ -- 5.7
 Characterization: the General Case -- 5.8 Wish List/Visualization -- 6
 Groups of Möbius Transformations.
 6.1 First Examples of Groups of Möbius Transformations -- 6.2
 Fundamental Domains and Discrete Groups -- 6.3 Special Möbius
 Transformations -- 6.4 Digression: Hyperbolic Geometry -- 6.4.1
 Hyperbolic Geometry I: The Upper Half-plane -- 6.4.2 Hyperbolic
 Geometry II: The Unit Circle -- 6.5 The Modular Group -- 6.6 Groups
 with Two Generators -- 6.7 Schottky Groups -- 6.8 The Mystery of the
 Parabolic Commutator -- 6.9 The Structure of Kleinian Groups -- 6.9.1
 The Isometric Circles -- 6.9.2 The Limit Set -- 6.9.3 A Fundamental
 Domain -- 6.10 Parabolic Commutators: Construction -- References
 for Part II -- Part III Penrose Tilings -- 7 Penrose Tilings -- 7.1 Non-
 periodic Tilings: The Problem -- 7.2 The "Golden" Penrose Triangles --
 7.3 Which Tiling Patterns are Possible? -- 7.4 Index Sequences
 Generate Tilings -- 7.5 Isomorphisms of Penrose Tilings -- 7.6
 Supplements -- References for Part III -- Index.
