	Sommario/riassunto	The subcultural enfant terrible of devolutionary protest and rebellion, Irvine Welsh is now widely acknowledged as the founding father of a whole new tradition in post-devolution Scottish writing. The unprecedented worldwide success of Trainspotting, magnified by Danny Boyle's iconic film adaptation, revolutionised Scottish culture and radically remoulded the country's self-image from dreamy romantic hinterland to agitated metropolitan hotbed. Although Welsh's career is very much an ongoing phenomenon, his influence on contemporary Scottish literary history is already indisputable and enduring

	Sommario/riassunto	This book constitutes the refereed proceedings of the 23rd International Conference on Intelligent Data Engineering and Automated Learning, IDEAL 2022, which took place in Manchester, UK,

during November 24-26, 2022. The 52 full papers included in this book were carefully reviewed and selected from 79 submissions. They deal with emerging and challenging topics in intelligent data analytics and associated machine learning paradigms and systems. Special sessions were held on clustering for interpretable machine learning; machine learning towards smarter multimodal systems; and computational intelligence for computer vision and image processing.
