Sommario/riassunto

This new volume presents a wealth of fresh data documenting and analyzing the different positions taken by governments in the development of the European Constitution. It examines how such decisions have substantial effects on the sovereignty of nation states and on the lives of citizens, independent of the ratification of a constitution. Few efforts have been made to document constitution building in a systematic and comparative manner, including the different steps and stages of this process. This book examines European Constitution-building by tracing the two-level policy formatio
