### Sommario/riassunto

This book is an assemblage of diverse yet homogenous research papers that bring together the issues and challenges of cultural heritage conservation and tourism sustainability. The richness of this book stems from its inclusion of diverse case studies from around the globe while scrutinizing the cases of both deterioration and sustainability of cultural heritage belonging to different eras. This book sheds light on the connections between culture as an essential dimension of local sustainability and cultural dimensions of sustainable tourism, further contributing to the complex discussion between culture and tourism. This book gives an overview of current research and subjects of discussion that focuses on cultural sustainable tourism through several sections, such as planning and management of sustainable tourism, sustainable cultural tourism development in a digital era, social and economic impacts of cultural tourism, and sustainable tourism development in urban areas.
