

1. Record Nr.	UNINA9910633978903321
Titolo	Autonomic Nervous System : Special Interest Topics // edited by Theodoros Aslanidis and Christos Nouris
Pubbl/distr/stampa	London, United Kingdom : , : IntechOpen, , 2022
ISBN	1-80355-193-3
Descrizione fisica	1 online resource (172 pages)
Disciplina	612.89
Soggetti	Autonomic nervous system Neurosciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The autonomic nervous system (ANS) is a subsystem of the nervous system that possesses several levels (groups) for receiving, transmitting, generating, and processing information. This book presents a comprehensive overview of the ANS, including chapters on the role of the ANS in a healthy lifestyle, the ANS-stress relationship, general anesthesia and the ANS, signaling pathways, and more.
