Sommario/riassunto	This book consists of studies on China's economic development since China carried out the reform and opening-up strategy, including China's economic restructuring, economic operational mechanism,

socialist market economy, inflation, the reform of the urban housing system, the economic impact of WTO entry, the future potential growth rate, global economic governance, structural reform and taxation reforms, the rapid growth of China's financial industry, and more. These studies explore China's successful experience of economic growth in the past and will shed some light on China's economic development in the future, providing value to economists and Chinese scholars. Chaoyang Wang is a research fellow from Chinese Academy of Social Science (CASS), he used to be the editorial director of Finance and Trade Economics, an academic journal sponsored by National Academy of Economic Strategy, CASS. His major research interests include financial reform, financial services industry, financial centers, and the service economy.
