1. Record Nr.   UNINA9910637702103321

   Titolo   Advances in Service-Oriented and Cloud Computing : International
                     Workshops of ESOCC 2022, Wittenberg, Germany, March 22–24, 2022,
                     Revised Selected Papers / / edited by Christian Zirpins, Guadalupe
                     Ortiz, Zoltan Nochta, Oliver Waldhorst, Jacopo Soldani, Massimo Villari,
                     Damian Tamburri

   Pubbl/distr/stampa   Cham : , : Springer Nature Switzerland : , : Imprint : Springer, , 2022

   ISBN   9783031232985
                     3031232984

   Edizione   [1st ed. 2022.]

   Descrizione fisica   1 online resource (119 pages)

   Collana   Communications in Computer and Information Science, , 1865-0937 ; ;
                     1617

   Disciplina   411
                     004.654

   Soggetti   Software engineering
                     Computer systems
                     Computer networks
                     Application software
                     Software Engineering
                     Computer System Implementation
                     Computer Communication Networks
                     Computer and Information Systems Applications

   Lingua di pubblicazione   Inglese

   Formato   Materiale a stampa

   Livello bibliografico   Monografia

   Nota di bibliografia   Includes bibliographical references and index.

   Nota di contenuto   First International Workshop on AI for Web Application Infrastructure
                     and Cloud Platform Security (AWACS 2022) -- Towards a Metadata
                     Management System for provenance, reproducibility and accountability
                     in Federated Machine Learning -- Towards a Secure Peer-to-Peer
                     Federated Learning Framework -- MIDA: Micro-Flow Independent
                     Detection of DDoS Attacks with CNNs -- ESOCC 2022 PhD Symposium
                     -- Improving the Key Exchange Process of the eXtended Triple Diffie-
                     Hellman Protocol with Blockchain -- Towards Data Governance for
                     Federated Machine Learning -- ESOCC 2022 Projects Track --
                     QuickFaaS: Providing Portability and Interoperability between FaaS

Platforms -- Cloud Computing Continuum research topics and challenges. A multi-source analysis -- Developing a New DevOps Modelling Language to Support the Creation of Infrastructure as Code -- Urban Heat Island Detection Utilizing Citizen Science -- Using a multi-sourced methodology to identify challenges in Software Technologies research -- ESOCC 2022 Industrial Track -- Rethinking Monitoring for Cloud Environments: BMC Software AIOps Case Study.

Sommario/riassunto	This volume contains the technical papers presented in the workshops, which took place at the 9th European Conference on Service-Oriented and Cloud Computing, ESOCC 2022, held in Wittenberg, Germany, in March 2022. The 4 full papers and 7 short papers included in these proceedings were carefully reviewed and selected from 17 submissions. The workshop proceedings volume of ESOCC 2022 contains contributions from the following workshops and events: First International Workshop on AI for Web Application Infrastructure and Cloud Platform Security (AWACS 2022) PhD Symposium of ESOCC 2022 ESOCC 2022 Projects Track ESOCC 2022 Industrial Track.
