ISBN	9789811017759 9789811017735
Edizione	[1st ed. 2022.]
Descrizione fisica	1 online resource (119 pages)
Collana	SpringerBriefs in Architectural Design and Technology Series
Disciplina	729
Soggetti	Architectural design Human comfort
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Introduction -- Measures, Perception and Physiology -- Design Codification -- Current Research -- Project Examples.
Sommario/riassunto	This book discusses the design of comfortable buildings and shows that design perception and, as a result, comfort should be an intentional feature of architectural design. Modern buildings are often sealed boxes without operable windows or daylighting design. However, contemporary designers increasingly find themselves faced with the task of creating spaces that are comfortable in terms of thermal and visual aspects.
