

1. Record Nr.	UNINA9910637731603321
Titolo	EuroKarst 2022, Malaga : advances in the hydrogeology of karst and carbonate reservoirs // Bartolomeo Andreo [and four others], editors
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2023] ©2023
ISBN	3-031-16879-8
Descrizione fisica	1 online resource (249 pages)
Collana	Advances in Karst Science
Disciplina	553.28
Soggetti	Carbonate reservoirs Hydrology, Karst
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Intro -- Preface -- Reviewers -- Contents -- Karst Hydrogeology and Methods to Study Karst Aquifers -- 1 Initiative to Select, Label and Protect the World's Most Important Karst Springs -- Abstract -- 1 Introduction -- 2 Brief History of Some Karst Springs Utilisation -- 3 Large Karst Springs Distribution -- 4 Karst Springs Heritage-Selection Criteria and Application -- 5 Conclusions -- References -- 2 Flood Hazard in the Classical Karst: The Case of Mucille Polje (NE Italy) -- Abstract -- 1 Introduction -- 2 Methods -- 3 Results -- 4 Conclusions -- Acknowledgements -- References -- 3 Impacts of Recharge and Discharge on Sustainability of the Trinity Aquifers of Central Texas -- Abstract -- 1 Introduction -- 2 Hydrogeology -- 3 Recharge -- 4 Potentiometric Map -- 5 Hydrographs -- 6 Population Increases and Groundwater Extraction -- 7 Groundwater Management -- 8 Conclusions -- References -- 4 Exploration of Karst Groundwater and Surface Water in Central Middle Atlas, Morocco -- Abstract -- 1 Introduction -- 2 Study Area -- 3 Material and Method -- 3.1 Water Balance -- 3.2 Data -- 4 Results and Discussion -- 5 Conclusion -- References -- 6 Updating the Water Budget of the Gran Sasso Carbonate Fractured/Karstified Aquifer (Central Italy) for a Sustainable Management of Groundwater Resources -- Abstract -- 1 Introduction -- 2 Hydrogeological Setting -- 3 Recharge Evaluation Methodology -- 4 Results and Discussion -- 5 Conclusion -- Acknowledgements --

References -- 7 Combining Quantitative Analysis Tools (Cross-Correlation Analysis and Dye Tracer Tests) to Assess Response Times in Karst Aquifers. The Ubrique Karst System (Southern Spain) -- Abstract -- 1 Introduction -- 2 Site Description -- 3 Methods -- 4 Results -- 5 Discussion -- 5.1 Representativeness and Methodological Limitations -- 5.2 Conceptual Scheme of Functioning -- 6 Conclusions. Acknowledgements -- References -- 8 Quantitative and Geochemical Characterization of the Mokra Karst Aquifer (SE Serbia) by Time Series Analysis and Stochastic Modelling -- Abstract -- 1 Introduction -- 2 Study Area General Characteristics -- 3 Methods -- 4 Results and Discussion -- 5 Conclusions -- References -- 9 Characterization of the Isotopic Signature of Effective Rainfall ( $^{18}\text{O}$ ,  $^2\text{H}$ ) to Constrain the Groundwater Recharge Zones in a Mediterranean Karst Aquifer -- Abstract -- 1 Introduction -- 2 Case Study and Data -- 3 Method -- 4 Results -- 5 Conclusion -- Acknowledgements -- References -- 10 Application of Statistical Approaches to Piezometry to Improve the Understanding of the Karst Aquifer Hydrodynamic Behaviours at the Cadarache CEA Centre (France) -- Abstract -- 1 Introduction -- 2 Presentation of the Study Site: The Cadarache CEA Centre -- 2.1 Geological and Hydrogeological Context -- 2.2 Monitoring Network -- 3 Material and Methods -- 3.1 Data Inventory and Evaluation -- 3.2 Analysis of the Spatial Variability of Rainfall at the Centre Scale -- 3.3 Statistical Analysis and Clustering Protocol -- 3.4 Selection of the Studied Rain Episodes -- 4 Results and Discussions -- 4.1 Piezometers Clustering -- 4.2 Link Between Sorted Piezometric Data and Geological Features -- 5 Conclusion -- References -- 11 Hydrogeological Processes of Karst-Influenced Multi-layered Aquifers of Northern Aquitaine Basin, France -- Abstract -- 1 Introduction -- 2 Study Area -- 3 Materials and Methods -- 4 Results and Discussion -- 4.1 Hydrogeological Characteristics -- 4.2 Geothermal Gradient -- 4.3 Hydrochemical Variability -- 5 Conclusions and Perspectives -- References -- 12 Implications of Tryptophan-Like-Fluorescence Long-Term Monitoring for Bacterial Detection in a Mountainous Karst Aquifer -- Abstract -- 1 Introduction -- 2 Site Description -- 3 Methods. 3.1 Water Sampling and Monitoring Network -- 4 Results -- 4.1 Time Series Analysis -- 4.2 Correlation with Contamination Indicators -- 5 Discussion -- 5.1 Method Technical Limitations -- 5.2 Tryptophan Origin -- 5.3 TLF as Indicator of Water Quality -- 6 Conclusions -- Acknowledgements -- References -- 13 What Microbial Signature Means in Terms of Groundwater Dynamics, Vulnerability and Residence Time-Comparison of Shallow and Deep Karst Resources -- Abstract -- 1 Introduction -- 2 Investigation Design -- 2.1 Study Area -- 2.2 Sampling and Analyses -- 3 Results -- 3.1 Shallow Groundwater -- 3.2 Deep Groundwater -- 4 Discussion -- 4.1 Microbiological Parameters -- 4.1.1 Fecal Indicator Bacteria (FIB) -- 4.1.2 Total Cell Count (TCC) -- 4.1.3 Live/Dead Cell Count -- 4.1.4 LNA/HNA Cell Count -- 4.2 Conceptual Framework -- 4.2.1 Dynamics -- 4.2.2 Vulnerability -- 4.2.3 Residence Time -- 4.2.4 Microbial Biocenosis -- 5 Conclusions -- References -- 14 Deriving Major Ion Concentrations at High Resolution from Continuous Electrical Conductivity Measurements in Karst Systems -- Abstract -- 1 Introduction -- 2 Materials and Methods -- 2.1 Study Areas -- 2.2 Electrical Conductivity (EC) Decomposition Method -- 3 Results and Discussion -- 3.1 Speciation Calculation -- 3.2 Computed Electrical Conductivity (EC) -- 3.3 Computed Ion Concentrations at High Frequency -- 4 Conclusions -- References -- 15 Hydrogeological Characterization and Modeling at Two Test Sites of the Apulian Karst (Southern Italy) -- Abstract -- 1 Introduction -- 2 Site Description -- 3 Methods -- 4 Results -- 5

Discussion -- Acknowledgements -- References -- 16 Prediction of Future Interactions Between Karst and River Regarding to Climate Change Based on IPCC Scenarios: Application to a Mediterranean French River Basin (Cèze) -- Abstract -- 1 Introduction -- 2 Material and Methods.

2.1 Study Area -- 2.2 Data and Software -- 2.3 Model Calibration and Validation -- 2.4 Simulation of Future Karst-River Interactions -- 3 Results -- 4 Discussion -- 4.1 Interpretation -- 4.2 Limits -- 4.3 Perspectives -- 5 Conclusion -- References -- 17 A Smart Analytical and Numerical Interpretation of Injection Tests in Unsaturated, Fractured and Karstified Carbonate Reservoirs -- Abstract -- 1 Introduction -- 2 Material and Methods -- 2.1 The Experimental Site -- 2.2 Description of the Tested Intervals -- 2.3 Hydraulic Tests -- 2.3.1 Measurements Protocol -- 2.3.2 Analytical Interpretations -- 2.3.3 Numerical Simulations -- 3 Results -- 3.1 A Systematic Dual-Medium Behavior -- 3.2 Multi-scale Petrophysical Properties According to the Geological Features -- 3.3 Insights from Numerical Simulations -- 4 Conclusions -- Acknowledgements -- References -- 18 On the Choice of a Performance Metric for Model Calibration Scheme Using Discharge-Age Information -- Abstract -- 1 Introduction -- 2 Case Area -- 3 Model Set-Up and Experimental Design -- 4 Model Conditioning Scheme -- 5 Results and Discussion -- 5.1 Exploration of Hydrologically Appropriate Performance Metric -- 5.2 The Physical Realism of Model Parameters Considering Aquifer Physical Properties -- 6 Conclusions -- References -- 19 Understanding Water Table Fluctuations in a Karstic Semiarid Mediterranean Aquifer Through Numerical Modeling: The Case of Almudaina-Segaria Aquifer -- Abstract -- 1 Introduction -- 2 Study Area Description -- 3 Methodological Approach -- 3.1 Conceptual Model and Simulation Building -- 3.2 Model Calibration -- 4 Results and Discussion -- 4.1 Model Calibration -- 4.2 Groundwater Flow and Variations Through Time -- 5 Conclusions -- Acknowledgements -- References -- Karst Caves, Geomorphology, Landscape and Natural Heritage.

20 Understanding Karst Conduit Size Distribution by Numerical Speleogenesis Modeling -- Abstract -- 1 Introduction -- 2 Speleogenesis Conceptual Model and Software Development -- 3 KSP Benchmark Test -- 4 Speleogenesis Simulation in Synthetic Fracture Networks -- 5 Discussion and Conclusions -- References -- 21 Unroofed Cave-An Underground Form on the Karst Surface -- Abstract -- Acknowledgements -- References -- 22 Geophysical Researches to Detect Karst Caves in the Main Polje of Apulia -- Abstract -- 1 Introduction -- 2 Data Collection and Analysis -- 3 Conclusions -- Acknowledgements -- References -- 23 Study of Rull Cave Dynamics to Understand the Complex Relationships Between Soil, Cave and External Atmosphere -- Abstract -- 1 Introduction -- 2 Materials and Methods -- 2.1 Field Site -- 2.2 Monitoring System -- 3 Results and Discussion -- 4 Conclusions -- Acknowledgements -- References -- 24 Hydrological and Environmental Dynamics in Las Güixas Show Cave: Tourist Exploitation and Flood Risk Management -- Abstract -- 1 Introduction -- 2 Location and Site Description -- 3 Methods -- 4 Results and Discussion -- 4.1 Temperature and RH Variations -- 4.2 CO<sub>2</sub> Natural Dynamics and Influence of Touristic Visits -- 4.3 Water Level Monitoring: Response to Precipitation -- 5 Conclusions -- References -- 25 Understanding Morphosedimentary Changes and Extreme Past Floods: The Case of Ojo De Valjunquera Cave (Iberian Range, Spain) -- Abstract -- 1 Introduction -- 2 Study Site -- 3 Material and Methods -- 4 Results -- 5 Discussion -- 6 Conclusions -- References -- 26 Identification of Near-Surface Karst Cavities Using the

Posterior Population Expansion Inverse Method Applied to Electrical Resistivity Data -- Abstract -- 1 Introduction -- 2 Methods -- 2.1 The Posterior Population Expansion Method -- 2.2 Prior Parameter Distribution.  
2.3 Forward Model and Traditional Inversion.
