

1. Record Nr.	UNISA996388514703316
Autore	Oldham John <1653-1683.>
Titolo	Satyrs upon the Jesuits [[electronic resource]] : written in the year 1679, upon occasion of the plot, together with the Satyr against vertue, and some other pieces by the same hand
Pubbl/distr/stampa	London, : Printed for Joseph Hindmarsh ..., 1681
Descrizione fisica	[8], 154, [1] p
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Errata: p. [1] at end. First edition. Each part has special t.p. Reproduction of original in Huntington Library.
Nota di contenuto	A satyr against vertue -- The passion of Byblis in Ovid's Metamorphosis imitated in English -- A satyr upon a woman, who by her falshood and scorn was the death of my friend.
Sommario/riassunto	eebo-0113

2. Record Nr.	UNINA9910637738803321
Autore	Pucciani Gianni
Titolo	Boozang from the Trenches : Learn Test Automation with Boozang in an Enterprise Environment / / by Gianni Pucciani
Pubbl/distr/stampa	Berkeley, CA : , : Apress : , : Imprint : Apress, , 2023
ISBN	9781484290101 1484290100
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (336 pages)
Disciplina	658
Soggetti	Computer networks Computer science Computer Communication Networks Computer Science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1: Web Test Automation in an Enterprise environment -- Chapter 2: Selenium, best practices and pain points -- Chapter 3: Meet Boozang -- Chapter 4: The TCS project -- Chapter 5: How Boozang was born -- Chapter 6: Starting up with Boozang -- Chapter 7: Main concepts and entities.-Chapter 8: Elements location approach -- Chapter 9: Exit conditions, conditional flows, and timers -- Chapter 10:Data Management -- Chapter 11:Reporting and troubleshooting -- Chapter 12:APIs and mixed API/GUI testing -- Chapter 13:APIs and mixed API/GUI testing -- Chapter 14: JIRA with Boozang via XRay -- Chapter 15: Jenkins and the Boozang runner -- Chapter 16: Boozang for teams.
Sommario/riassunto	Test Automation is a key aspect of delivering high-quality software and reducing time to market. Several tools and approaches are available today, each with its own constraints and specificity. This book introduces Boozang, a codeless web automation tool, using a real-life enterprise project as source for examples. You'll have the opportunity to learn the basic features of Boozang and how to implement end-to-end automated scenarios, mixing GUI and API actions. Integration with JIRA-XRay and Jenkins is also covered to show how Boozang can be

used effectively in an enterprise environment. The book is filled with examples that go beyond the Boozang tool, and cover the setup of a test automation project in a real context, with practical solutions as well as open points for which we are still looking for new ideas. You will learn how to:

- Install and set up a project with Boozang
- Create a modular test suite and use Gherkin to define scenarios
- Integrate Boozang with JIRA-XRay and work in a team with code branches
- Build a Jenkins pipeline to execute the automated scenarios nightly and reduce the execution time via parallelism
