

1. Record Nr.	UNINA9910458985203321
Autore	Hulac David M.
Titolo	Behavioral interventions in schools : a response-to-intervention guidebook // David Hulac. [et al.]
Pubbl/distr/stampa	New York : , : Routledge, , 2011
ISBN	1-135-16403-7 1-283-04511-7 9786613045119 0-203-85956-1
Descrizione fisica	1 online resource (289 p.)
Collana	School-based practice in action series
Disciplina	370.15/28
Soggetti	School discipline Classroom management Problem children - Behavior modification Electronic books.
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Book Cover; Title; Copyright; Contents; Series Editors' Foreword; 1 Introduction; 2 Building the School-Based Problem-Solving Team; 3 Understanding Positive Behavior Support; 4 Preventing Schoolwide Misbehaviors; 5 Preventing Classroom Misbehaviors; 6 Implementing a Schoolwide Token Economy; 7 Creating Procedures for Office Discipline Referrals; 8 Identifying Schoolwide Problems; 9 Identifying Classwide Problems; 10 Identifying Students for Tier II Interventions; 11 Providing Interventions for Students in Tier II; 12 Understanding the Function of Behavior 13 Providing Tier III Behavioral InterventionsReferences; CD Contents; Appendix A: Forms; Appendix B: Intervention Coach Cards; Appendix C: Excel Spreadsheet; Appendix D: Ways to Reward Kids; Appendix E: Topics of In-Services; Index
Sommario/riassunto	This book is a how-to manual for school mental health professionals, educators, and administrators that discusses a series of steps that can be used to proactively manage and prevent many different types of behavioral problems in a positive manner. It incorporates both the high

structure and high behavioral expectations that are crucial for school success, but also describes following this structure in such a way that students feel included, important, and respected. Rather than requiring the mental health providers to investigate the research themselves and come up with a behavioral problem

2. Record Nr.	UNINA9910637784103321
Autore	Lopez Daniel
Titolo	Functional Biodegradable Nanocomposites
Pubbl/distr/stampa	Basel, : MDPI - Multidisciplinary Digital Publishing Institute, 2022
ISBN	3-0365-5698-2
Descrizione fisica	1 electronic resource (186 p.)
Soggetti	Technology: general issues History of engineering & technology Materials science
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Concern around environmental issues facing society has grown significantly in recent years. Reduction in damages resulting from both industrial and domestic waste has become a key topic as a means to address environmental problems and the exhaustion of natural resources. Likewise, the use of materials of polymeric origin in applications such as tissue regeneration, controlled release of medicines, packaging, soil remediation, etc., makes the development of materials biodegradable in biological media increasingly important. Recently, significant progress has been achieved in the creation of biodegradable polymeric formulations with functionalities similar to those of non-biodegradable polymers, both of natural and of synthetic origin, extending their applicability to fields such as food packaging, electronics, production of health-related materials, agriculture, etc. In this context, biodegradable nanocomposites offer new and exciting

possibilities. This book deals with the development of functional polymer nanocomposites that can undergo biodegradation in different media, including biological systems, soils, landfills, etc. Original and review articles covering aspects of polymer science and technology, such as synthesis, processing, characterization, properties, and applications of functional biodegradable nanocomposites for different applications, are included in this book.
