Descrizione fisica	1 electronic resource (210 p.)
Soggetti	Religion & beliefs
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This collection of essays appears at the confluence of two major streams—the flowering of the “biblical theology movement” in a range of New Testament theologies published in the past two or three decades and the recent emergence of significant contributions to reflection on and the practice of theological interpretation of the Bible. To some, these two interests overlap enough to parade them under a single banner. To others, these are disparate approaches that draw on and display competing methodological commitments. Seasoned scholars and relative newcomers to the conversation orient readers to these concerns, not so much to resolve these differences but to explore them with an eye to the future of theological work with the New Testament.
