

1. Record Nr.	UNINA9910639993603321
Autore	Wen Zhen
Titolo	Advanced Materials and Technologies in Nanogenerators
Pubbl/distr/stampa	Basel, : MDPI - Multidisciplinary Digital Publishing Institute, 2022
ISBN	3-0365-5901-9
Descrizione fisica	1 electronic resource (194 p.)
Soggetti	Energy
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	This reprint discusses the various applications, new materials, and evolution in the field of nanogenerators. This lays the foundation for the popularization of their broad applications in energy science, environmental protection, wearable electronics, self-powered sensors, medical science, robotics, and artificial intelligence.
