

1. Record Nr.	UNINA9910640400003321
Autore	Sassa Kyoji
Titolo	Progress in Landslide Research and Technology, Volume 1 Issue 1, 2022 // edited by Kyoji Sassa, Kazuo Konagai, Binod Tiwari, Željko Arbanas, Shinji Sassa
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023
Edizione	[1st ed. 2023.]
Descrizione fisica	1 electronic resource (474 p.)
Collana	Progress in Landslide Research and Technology, , 2731-3808
Altri autori (Persone)	KonagaiKazuo TiwariBinod ArbanasŽeljko SassaShinji
Disciplina	551 363.34
Soggetti	Natural disasters Geomorphology Geotechnical engineering Natural Hazards Geotechnical Engineering and Applied Earth Sciences
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di contenuto	Chapter 1. Aim and Outline of the Book Series “Progress in Landslide Research and Technology (Kyoji Sassa) -- Part I. International Consortium on Landslides and International Programme on Landslides -- Chapter 2. International Consortium on Landslides: from IDNDR, IGCP, UNITWIN, WCDRR 2 & 3 to Kyoto Landslide Commitment 2020 (Kyoji Sassa) -- Chapter 3. International Programme on Landslides – A Short Overview of its Historical Development (Matjaž Mikoš) -- Part II. Original Articles -- Chapter 4. Understanding and Reducing the Disaster Risk of Landslide-induced Tsunamis: Outcome of the Panel Discussion and the World Tsunami Awareness Day Special Event of the Fifth World Landslide Forum (Shinji Sassa) -- Chapter 5. Natural-hazard-related web observatory as a sustainable development tool (Matjaž Mikoš) -- Chapter 6. Mapping post-fire monthly erosion rates

at the catchment scale using empirical models implemented in GIS. A case study in Northern Italy (Damiano Vacha) -- Chapter 7. Mechanisms of shallow rainfall-induced landslides from Australia: insights into field and laboratory investigations (Ivan Gratchev) -- Chapter 8. Design protection barriers against flow-like landslides (Sabatino Cuomo) -- Chapter 9. Landslide warning systems in low- and lower-middle-income countries: future challenges and societal impact (Irasema Alcántara-Ayala) -- Chapter 10. The role of translational landslides in the evolution of cuesta topography (Shinro Abe).

Sommario/riassunto

This open access book is the first issue of the first volume of the ICL new book series "Progress in Landslide Research and Technology," founded by the Launching Declaration of the ICL Open Access Book Series "Progress in Landslide Research and Technology (P-LRT)" for the Kyoto Landslide Commitment 2020 on 3 November 2021 during the Fifth World Landslide Forum (WLF5) in Kyoto, Japan. This book contains the followings: Forewords for the book series and Opening Greetings of WLF5 International Consortium on Landslides and International Programme on Landslides Original articles Review articles IPL Projects, World Centres of Excellence on Landslide Risk Reduction, and Kyoto Landslide Commitment 2020 ICL Landslide Teaching Tools Technical notes and Case studies Official Promoters of the Kyoto Landslide Commitment 2020 (public and private) List of ICL members Prof. Kyoji Sassa is the founding President and the Secretary General of the ICL and the Secretary General of the Kyoto Landslide Commitment 2020. He is the Editor-in-Chief of the International Journal Landslides and ICL book series P-LRT. Prof. Kazuo Konagai is Professor Emeritus of the University of Tokyo and Principal Researcher at the ICL headquarters. He is an Assistant Editor-in-Chief of the ICL book series P-LRT. Prof. Binod Tiwari is the Vice President of the ICL for America. He is a professor of civil and environmental engineering and the Associate Vice President for Research and Sponsored Projects at the California State University, Fullerton, California, USA. He is an Assistant Editor-in-Chief of the ICL book series P-LRT. Prof. Zeljko Arbanas is the Vice President of the ICL for Europe. He is a professor at the Faculty of Civil Engineering, University of Rijeka, Croatia. He is an Assistant Editor-in-Chief of the International Journal Landslides and ICL book series P-LRT. Dr. Shinji Sassa is Head of Soil Dynamics Group and Research Director of International Research Center for Coastal Disasters, Port and Airport Research Institute, National Institute of Maritime, Port and Aviation Technology, Japan. He is an Editor of the International Journal Landslides and ICL book series P-LRT.
