|-------------------------|---|
| 1. Record Nr.           | UNINA9910642781303321   |
| Titolo                  | Molecular beams [[electronic resource] /] / edited by John Ross   |
| Pubbl/distr/stampa      | New York, : Interscience, 1966  |
| ISBN                    | 1-282-34734-9<br>9786612347344<br>0-470-14356-8<br>0-470-14395-9  |
| Descrizione fisica      | 1 online resource (432 p.)  |
| Collana                 | Advances in chemical physics ; ; v. 10  |
| Altri autori (Persone)  | RossJohn  |
| Disciplina              | 541<br>541.305<br>541/.08   |
| Soggetti                | Molecular beams<br>Scattering (Physics)   |
| Lingua di pubblicazione | Inglese   |
| Formato                 | Materiale a stampa  |
| Livello bibliografico   | Monografia  |
| Note generali           | Description based upon print version of record.   |
| Nota di bibliografia    | Includes bibliographical references and index.  |
| Nota di contenuto       | MOLECULAR BEAMS; CONTENTS; 1. Beam Measurements of Atomic Polarizabilities; 2. Elastic Scattering of High-Energy Beams: Repulsive Forces; 3. Quantum Effects in Elastic Molecular Scattering; 4. Elastic Scattering in Chemically Reactive Systems; 5. Collisions of Electronically Excited Atoms and Molecules; 6. Charge Transfer; 7. Ion-Neutral Reactions; 8. Supersonic Nozzle Beams; 9. Reactive Scattering in Molecular Beams; Appendix. Selected References on Molecular Beam Research; Author Index; Subject Index |
| Sommario/riassunto      | The Advances in Chemical Physics series provides the chemical physics and physical chemistry fields with a forum for critical, authoritative evaluations of advances in every area of the discipline. Filled with cutting-edge research reported in a cohesive manner not found elsewhere in the literature, each volume of the Advances in Chemical Physics series serves as the perfect supplement to any advanced graduate class devoted to the study of chemical physics.   |
