

1. Record Nr.	UNINA9910645890803321
Titolo	Arthroscopy and Endoscopy of the Shoulder : Principle and Practice // edited by Tun Hing Lui
Pubbl/distr/stampa	Singapore : , : Springer Nature Singapore : , : Imprint : Springer, , 2023
ISBN	9789811978845 9789811978838
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (468 pages)
Disciplina	605
Soggetti	Orthopedics Orthopaedics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references.
Nota di contenuto	Arthroscopic anatomy of shoulder -- Role of radiological investigations in diagnosis of shoulder disorders and surgical planning of arthroscopic and endoscopic shoulder surgery -- Set up, equipments and surgical instruments -- Complications of shoulder arthroscopy -- Arthroscopic management of acute traumatic shoulder instability -- Arthroscopic management of recurrent anterior shoulder instability -- Management of Bony Bankart Lesions / glenoid bone loss. Arthroscopic Latarjet procedure -- Management of Bony Bankart Lesions / glenoid bone loss. Arthroscopic bone grafting -- Management of Bony Bankart Lesions / glenoid bone loss. Arthroscopic distal clavicle osteochondral autograft transfer -- Endoscopic Latarjet revision with Eden-Hybinette bone block endoscopic procedure -- Arthroscopic management of Hill Sachs lesion. Remplissage technique -- Arthroscopic management of HAGL (humeral avulsion of glenoid ligament) and Reverse HAGL Lesions -- Dynamic Anterior Stabilization Using the Long Head of the Biceps for Anteroinferior Glenohumeral Instability -- Arthroscopic Trillat Procedure -- Arthroscopic management of posterior shoulder instability -- Arthroscopic management of multidirectional shoulder instability -- Subacromial impingement and endoscopic acromioplasty -- Arthroscopic Repair of Anterosuperior Rotator Cuff Tears -- Subcoracoid impingement and Endoscopic coracoplasty -- Endoscopic repair of subscapularis tendon tear -- Arthroscopic management of

massive rotator cuff tear -- Arthroscopic Subacromial Spacer Implantation -- All-arthroscopic latissimus dorsi transfer -- Combined fully arthroscopic transfer of latissimus dorsi and teres major for treatment of irreparable posterosuperior rotator cuff tears -- Arthroscopic-assisted pectoralis minor transfer for irreparable tears of the upper two-thirds of the subscapularis tendon -- Arthroscopic Transfer of the Pectoralis Major for Irreparable Tear of the Subscapularis -- Arthroscopic Treatment of Calcific Tendonitis of supraspinatus tendon -- Arthroscopic Treatment of Subscapularis Calcific Tendonitis -- Arthroscopic management of SLAP lesion -- Tenoscopy of long head of biceps tendon -- Tenoscopic suprapectoral biceps tenodesis -- Tenoscopic subpectoral biceps tenodesis -- Arthroscopic Coracohumeral Ligament Release for Patients with Frozen Shoulder -- Arthroscopic Circumferential Capsulotomy and Axillary Nerve Release for Patients with Frozen Shoulder -- Arthroscopic Treatment of Glenohumeral Osteoarthritis -- Arthroscopic glenohumeral arthrodesis -- Arthroscopic management of Periarticular Cysts -- arthroscopic management of synovial chondromatosis of the glenohumeral joint -- Arthroscopic management of septic arthritis of the glenohumeral joint -- Endoscopic Treatment of Acute Acromioclavicular Joint Dislocation -- Endoscopic Coracoclavicular Ligament Reconstruction using TightRope device -- Endoscopic Coracoclavicular Ligament Reconstruction using tendon graft -- Endoscopically assisted Coracoclavicular and Acromioclavicular Ligament Reconstruction for chronic acromioclavicular joint dislocation -- Bipolar Endoscopic Acromioclavicular Joint Resection for symptomatic acromioclavicular joint osteoarthritis -- arthroscopic excision of symptomatic meso-acromiale -- Scapulothoracic Endoscopy for Snapping Scapula Syndrome -- Endoscopic Removal of a Scapular Osteophyte Using Scapulothoracic Arthroscopy -- Endoscopically assisted resection of a scapular osteochondroma causing snapping scapula syndrome -- Arthroscopic Pectoralis Minor Release -- Endoscopic management of scapular winging -- Sternoclavicular arthroscopy -- Arthroscopic resection of intra-articular disc of the sternoclavicular joint -- Arthroscopic excision of the sternoclavicular joint -- Endoscopic release of Brachial plexus -- Endoscopic Suprascapular Nerve Decompression at the Spinoglenoid and Suprascapular Notches -- Endoscopic treatment of comminuted distal clavicular fracture -- Arthroscopic treatment of greater tuberosity avulsion fracture -- Arthroscopic management of subcapital humeral fractures. arthroscopic nailing) -- Arthroscopic management of glenoid fractures -- Endoscopic proximal humeral plate removal.

Sommario/riassunto

This book provides detailed advancement endoscopy and arthroscopy procedures of shoulder. It covers basic knowledge of procedures and dedicated introduction of surgical techniques for treatment of shoulder diseases with better surgical outcome and less surgical morbidity. Endoscopic and arthroscopic procedures with their advantage in surgical exposure and post-operative rehabilitation have been extensively performed in orthopedic diseases. Cases presentation with well-illustrated arthroscopic and endoscopic photos for common clinical conditions was provided. The format is a step-by-step procedure for easy reference, particularly for surgeons in their training.
