ISBN	92-861-4571-3
Descrizione fisica	1 online resource (1 p.)
Collana	EIB Working Papers
Soggetti	Business & Economics / Finance Economics
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	Financial instruments and technical assistance are effective in increasing investments in energy efficiency. When these favourable conditions are combined, the probability that firms invest in energy efficiency increases by more than a third. These results provide important insights into measures to increase energy efficiency investments, and how to optimally design them, which is key for EU policy-makers and lending institutions.
