Sommario/riassunto	Deze studie is opgesteld in opdracht van de WRR, meer specifiek de projectgroep Beleid, Informatie en Technologie. Om meer inzicht te verwerven in de dynamiek rondom de ontwikkeling, invoering en het

gebruik van ICT in de relatie overheid-burger heeft de projectgroep een aantal empirische studies uitgezet. Daarbij heeft ze de auteurs onder meer gevraagd een aantal beginselen in de analyse te betrekken die als het ware de schragen vormen waarop de relatie overheid-burger in de informatiesamenleving rust. Het betreft de beginselen: keuzevrijheid, identiteit en identificatie, transparantie, effectiviteit en efficiëntie, accountability en privacy. De serie WRR-webpublicaties omvat studies die in het kader van de werkzaamheden van de WRR tot stand zijn gekomen. De verantwoordelijkheid voor de inhoud en de ingenomen standpunten berust bij de auteurs.

Sommario/riassunto	Building on insights from the fields of textual criticism, bibliography, narratology, authorship studies, and book history, The Preface: American Authorship in the Twentieth Century examines the role that prefaces played in the development of professional authorship in America. Many of the prefaces written by American writers in the twentieth century catalogue the shifting landscape of a more self-consciously professionalized trade, one fraught with tension and compromise, and influenced by evolving reading publics. With analyses of Willa Cather, Ring Lardner, F. Scott Fitzgerald, Ernest Hemingway, Robert Penn Warren, and Toni Morrison, Ross K. Tangedal argues that writers used prefaces as a means of expanding and complicating authority over their work and, ultimately, as a way to write about their careers. Tangedal's approach offers a new way of examining American writers in the evolving literary marketplace of the twentieth century.
