Nota di contenuto	Introduction -- Part 1. Past, Present, and Future of Academia -- Part 2. Governance, Management, and Leadership of HEI -- Part 3. The Organizational System of the University -- Part 4. University Missions Management -- Part 5. Management of Functional Areas of Universities -- Conclusions.
Sommario/riassunto	"The reflection on university management is based on the question about the shape of universities of the future. Civic, responsible, sustainable, virtual, digital and many other universities can be mentioned among concepts present in the literature. All these names describe an important distinctive feature of a university, which will gain more and more importance in the future. However, given the fundamental importance of the radical change taking place, it seems that the most appropriate name, reflecting the essence of the emerging new formation, is 'digital university.' This is because of the importance of digital transformation, which has been developing for several decades, bringing deep and multidirectional changes in the areas of technology, economy, society and culture. It is a disruptive civilizational transition and, although stretched over many decades, it is revolutionary in nature, significantly changing our lives in the

Anthropocene. The book has three cognitive and pragmatic objectives: to provide a new perspective on the changing academic organization and management; to reflect on higher education management concepts and methods; and to present an overview of university management, governance and leadership, useful from the perspective of academic managers, and other stakeholders"--
