

1. Record Nr.	UNINA9910663787503321
Titolo	Critical approaches to the history of western herbal medicine : from classical antiquity to the early modern period / / edited by Susan Francia and Anne Stobart
Pubbl/distr/stampa	London ; ; New Delhi ; ; New York : , : Bloomsbury, , 2014
ISBN	9781441143570 1441143572 9781785392795 1785392794 9781474210577 1474210570 9781441185808 1441185801
Descrizione fisica	1 online resource (366 p.)
Disciplina	615.32109
Soggetti	Herbs - Therapeutic use Materia medica, Vegetable Western countries
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	pt. 1. Revisiting original texts comparative textual analysis and new perspectives on original sources -- pt. 2. Using archival sources extending the evidence available -- pt. 3. Focusing on one individual biographical and other textual sources -- pt. 4. The multi-disciplinary nature of the history of herbal medicine, and contributions from archaeology and ethnobotany.
Sommario/riassunto	"Why has the history of Western herbal medicine received such little research coverage in any systematic and authoritative way, even though it has figured large in both lay and learned healthcare of the past? What methods and sources are most appropriate for the study of medicinal herbs and herbal practices of the past? This collection provides historians with a coherent guide to a variety of sources in relation to

medicinal plants that they have thus far lacked. *Critical Approaches to the History of Western Herbal Medicine* encourages a serious re-assessment of research in the history of herbal medicine and provides examples of appropriate methodologies and critical examinations of relevant sources. In this innovative collection, historians and researchers from a range of disciplines come together to share material on the identification and use of medicinal plants, the activities of people involved with herbal medicine and the investigation of past herbal therapeutic beliefs and practice. Classical and medieval scholars, social and literary historians, archaeologists and ethnobotanists all contribute to this exploration of the history of Western herbal medicine."--Bloomsbury Publishing.
