Sommario/riassunto	Biofuels and Rural Poverty makes an original contribution to the current controversial global debate on biofuels, in particular the consequences that large-scale production of transport fuel substitutes can have on rural areas, principally in developing countries but also in some poor rural areas of developed countries. ? Three key concerns are examined from a North-South perspective: ecological issues (related to land use

and biodiversity), pro-poor policies (related to food and land security, gender and income generation) and equity of benefits within the global value cha
