	Edizione	[1st ed. 2023.]
	Descrizione fisica	1 online resource (173 pages)
	Collana	Lecture Notes in Electrical Engineering Series ; ; Volume 978
	Disciplina	004
	Soggetti	Computer systems
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Nota di bibliografia	Includes bibliographical references.
	Nota di contenuto	Artificial intelligence & data science -- Computer science, database management systems -- Data mining, modelling, warehousing -- Intelligent systems & optimization -- Data management & analytics -- Data science applications in biomedicine, engineering -- Business intelligence -- Process modelling -- Human-machine collaborative systems -- Pervasive sensing & systems -- Multimedia information systems & technology. .
	Sommario/riassunto	This book contains select proceedings papers from the Asia Pacific Computer Systems Conference (APCS 2022). The contents focus on the design and implementation of languages, data models, process models, algorithms, software and hardware for information systems. The chapters also include contributions on data mining and knowledge discovery addressing detailed descriptions of significant applications. This book proves a valuable resource for those in academia and industry interested in computational intelligence, artificial intelligence and automation.
