ISBN	3-031-26783-4
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (550 pages)
Collana	Lecture Notes in Networks and Systems, , 2367-3389 ; ; 636
Disciplina	306.446
Soggetti	Sublanguage Technology and civilization Multilingualism
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	The All-Human Space of Transformation: Technology and Culture -- Modern technologies for teaching languages and their role in the development of a global technogenic civilization -- The Four-Dimensionality of Utility as a Philosophic Category -- Working Knowledge: What Do I Know about How I do Something? -- Social Interaction with Non-Anthropomorphic Technology -- The necessity of forming multilingual competencies in the educational process digitalization -- Foreign Language Anxiety in Multilingual Students before and after Corona-Lockdown: A Comparative Analysis -- The Technologies of Higher Education Digitalization in Modern Conditions -- Checklist as a Working Tool for the Formation of Digital Literacy of BIM-specialists in the Multilingual World.
Sommario/riassunto	The book addresses the challenge of living in a multilingual world from three perspectives: socio-linguistics and the study of multilingualism in contrast, philosophy of technology with its emphasis on the world as a technosphere—how it is made, how it is experienced, and how it can be managed, and then pedagogy and the question of teaching and learning to competently negotiate multilingual environments. In today's multicultural and multilingual world, technologies provide a common

ground. The story of the technosphere as a multilingual environment offers new perspective, namely that of learning to cooperate and coordinate.
