

1. Record Nr.	UNINA9910672446103321
Autore	Rohani Atooshe
Titolo	Clinical cases in the management of complex cardiovascular disease // Atooshe Rohani
Pubbl/distr/stampa	Cham, Switzerland : , : Springer, , [2023] ©2023
ISBN	9783031245282 9783031245275
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (139 pages)
Collana	Clinical Cases in Cardiology, , 2523-3017
Disciplina	616.1
Soggetti	Cardiovascular system - Diseases
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Digoxin toxicity induced frequent arrhythmia -- Myocarditis and cardiogenic shock -- Alcohol induced cardiomyopathy and cardiogenic shock -- Interactable hypokalemia and torsade de pointes -- Complete heart block and clot in RCA -- Sustained ventricular tachycardia in a patient with HOCM -- Saddle pulmonary embolism and intractable atrial fibrillation -- ST elevation MI and spontaneous coronary artery dissection -- Frequent inappropriate ICD shock -- Post dialysis hypotension ,new diagnosis of HOCM -- Hyperparathyroidism and calcified Mitral and aortic valve disease -- Cardiac amyloidosis and syncope -- TV endocarditis and recurrent septic embolism -- Recurrent chest pain and lytic lesion in spine -- Acute type A aortic dissection in a young man -- Prostate cancer and tachycardia -- Cocaine and tachycardia -- VT or artifact -- Atrial flutter vs flecainide effect -- ST depression in Holter, associated with chest pain -- Hypotension post below knee amputation -- Shortness of breath on exertion and Mobitz type 2 AV block -- Stroke and mitral valve endocarditis -- Atrial fibrillation with rapid ventricular response and heart failure with reduced EF -- Takotsubo cardiomyopathy -- Beker dystrophy and cardiomyopathy -- HOCM and aortic valve stenosis presents at the same time.
Sommario/riassunto	The cases presented in this book represent a cross-section of clinical cardiology experience in a very busy academic hospital. It provides a

practical resource for diagnosing and treating complex cases especially for early career cardiologists. A unique feature of this book is the many examples of both rare and common cardiology consults, exploring the patient history, physical examination, ECG, echocardiography and other diagnostic tests, and treatment options. *Clinical Cases in the Management of Complex Cardiovascular Disease* provides an exceptional resource for clinicians who want to be involved in cardiology consults. Consequently, it is important reading for cardiologists, cardiology residents, internists and intensive care physicians.
