

1. Record Nr.	UNINA9910672448703321
Autore	Rabczuk Timon
Titolo	Computational Methods Based on Peridynamics and Nonlocal Operators : Theory and Applications / / by Timon Rabczuk, Huilong Ren, Xiaoying Zhuang
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023
ISBN	3-031-20906-0
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (327 pages)
Collana	Computational Methods in Engineering & the Sciences, , 2662-4877
Disciplina	004.0151 531
Soggetti	Mechanics, Applied Computational intelligence Dynamics Nonlinear theories Engineering Mechanics Computational Intelligence Applied Dynamical Systems
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Introduction -- Dual-horizon Peridynamics -- First order nonlocal operator method -- Nonlocal operator method for waveguides.
Sommario/riassunto	This book provides an overview of computational methods based on peridynamics and nonlocal operators and their application to challenging numerical problems which are difficult to deal with traditional methods such as the finite element method, material failure being “only” one of them. The authors have also developed a higher-order nonlocal operator approaches capable of solving higher-order partial differential equations on arbitrary domains in higher-dimensional space with ease. This book is of interest to those in academia and industry. .
