

1. Record Nr.	UNINA9910790716903321
Autore	De Graaf John
Titolo	Affluenza : how overconsumption is killing us-- and how we can fight back // John de Graaf, David Wann
Pubbl/distr/stampa	San Francisco : , : Berrett-Koehler Publishers, , [2014] ©2014
ISBN	1-60994-929-3 1-78402-837-1 1-60994-928-5
Edizione	[Third edition.]
Descrizione fisica	1 online resource (289 p.)
Altri autori (Persone)	WannDavid
Disciplina	306.30973
Soggetti	Quality of life - United States Wealth - United States Consumption (Economics) - United States United States Social conditions United States Economic conditions United States Civilization 1970-
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Note generali	Description based upon print version of record.
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Cover; Contents; Foreword; Introduction; PART ONE: SYMPTOMS; 1. Feverish expectations; 2. All stuffed up; 3. Stressed to kill; 4. Family fractures; 5. Community chills; 6. Heart failure; 7. Social scars; 8. Resource exhaustion; 9. Industrial diarrhea; 10. A cancerous culture; PART TWO: CAUSES; 11. Early infections; 12. An ounce of prevention; 13. The road not taken; 14. An emerging epidemic; 15. The Age of Affluenza; 16. Spin doctors; PART THREE: CURES; 17. Diagnostic test; 18. Bed rest; 19. Affluholics anonymous; 20. Fresh air; 21. Back to work; 22. Building immunity 23. Policy prescriptions 24. Vital signs; 25. The glow of health; Acknowledgments; Notes; Bibliography; Index; A; B; C; D; E; F; G; H; I; J; K; L; M; N; O; P; Q; R; S; T; U; V; W; Y; Z; About the authors
Sommario/riassunto	Previous editions of Affluenza described the early symptoms of the disease that led to a nearly fatal shutdown of all our financial systems

in 2008. This new edition puts more focus on the behavior changes we need to make to be certain that the Great Recession does not become a prelude to something worse.

2. Record Nr.	UNINA9910674040203321
Autore	Bruno Giovanni
Titolo	Brittle Materials in Mechanical Extremes
Pubbl/distr/stampa	Basel, Switzerland, : MDPI - Multidisciplinary Digital Publishing Institute, 2021
Descrizione fisica	1 online resource (178 p.)
Soggetti	Research & information: general Technology: general issues
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	The goal of the Special Issue "Brittle Materials in Mechanical Extremes" is to spark a discussion of the analogies and the differences between different brittle materials, such as ceramics and concrete. The contributions to the Issue span from construction materials (asphalt and concrete) to structural ceramics to ice. Data reported in the Issue were obtained by advanced microstructural techniques (microscopy, 3D imaging, etc.) and linked to mechanical properties (and their changes as a function of aging, composition, etc.). The description of the mechanical behavior of brittle materials under operational loads, for instance, concrete and ceramics under very high temperatures, offers an unconventional viewpoint on the behavior of such materials. While it is by no means exhaustive, this Special Issue paves the road for the fundamental understanding and further development of materials.
