Sommario/riassunto	<p>This book reports on innovative research and developments in the broad field of transportation. It covers solutions relating to intelligent vehicles and infrastructure, energy and combustion management, vehicle dynamics and engineering, as well as research on railway transport, aerospace technologies, logistics and security. Contributions are based on peer-reviewed papers presented at the 13th international scientific conference "Transbaltica: Transportation Science and Technology", held on September 15-16, 2022, at Vilnius Gediminas Technical University, in Vilnius, Lithuania. All in all, this book offers extensive information on modern transport systems, with a good balance of theory and practice. .</p>
