The Many Faces of LIANG Shuming: One Hundred Years in the Reception of Liang's Thought in European Languages (1922–2022).
Sommario/riassunto	This book provides an analysis of the complex philosophy of Liang Shuming. This twentieth-century thinker opened up a number of paths that were to become central components of modern Chinese

philosophy. For the first time, experts are brought together to analyze the complexity of his philosophy, which continues to exert a considerable influence today. This edited volume covers Liang's multifaceted thought as informed by his many identities as a Buddhist, a Confucian, a Bergsonian, a rural reformer, and a philosopher. The volume will appeal to students, scholars, and general-interest readers.
