1.	Record Nr.	UNINA9910674358403321
	Autore	Gelbukh Alexander <1962->
	Titolo	Computational linguistics and intelligent text processing : 19th international conference, CICLing 2018, Hanoi, Vietnam, March 18-24, 2018, revised selected papers, Part I / / Alexander Gelbukh
	Pubbl/distr/stampa	Cham, Switzerland : , : Springer Nature Switzerland AG, , [2023] ©2023
	ISBN	3-031-23793-5
	Edizione	[1st ed. 2023.]
	Descrizione fisica	1 online resource (441 pages)
	Collana	Lecture Notes in Computer Science, , 1611-3349 ; ; 13396
	Disciplina	410.285
	Soggetti	Computational linguistics Natural language processing (Computer science) Text processing (Computer science)
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Nota di bibliografia	Includes bibliographical references and index.
	Nota di contenuto	Author profiling and authorship attribution, social network analysis -- Information retrieval, information extraction -- Lexical resources -- Best Paper Award, Third Place -- Machine translation -- Morphology, Syntax -- Best Paper Award, Second Place -- Semantics and text similarity -- Sentiment analysis -- Syntax and parsing -- Text categorization and clustering -- Best Paper Award, First Place -- Text generation -- Text mining.
	Sommario/riassunto	The two-volume set LNCS 13396 and 13397 constitutes revised selected papers from the CICLing 2018 conference which took place in Hanoi, Vietnam, in March 2018. The total of 68 papers presented in the two volumes was carefully reviewed and selected from 181 submissions. The focus of the conference was on following topics such as computational linguistics and intelligent text and speech processing and others. The papers are organized in the following topical sections: General, Author profiling and authorship attribution, social network analysis, Information retrieval, information extraction, Lexical resources, Machine translation, Morphology, syntax, Semantics and text similarity, Sentiment analysis, Syntax and parsing, Text categorization and clustering, Text generation, and Text mining.
