1.	Record Nr.	UNINA9910676686503321
	Autore	Ciardelli Ivano
	Titolo	Inquisitive Logic : Consequence and Inference in the Realm of Questions / / by Ivano Ciardelli
	Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2022
	ISBN	9783031097065
	Edizione	[1st ed. 2022.]
	Descrizione fisica	1 online resource (XX, 272 p. 53 illus., 3 illus. in color.)
	Collana	Trends in Logic, Studia Logica Library, , 2212-7313 ; ; 60
	Disciplina	160
	Soggetti	Logic Mathematical logic Mathematical Logic and Foundations Lògica matemàtica Inferència Llibres electrònics
	Lingua di pubblicazione	Inglese
	Formato	Materiale a stampa
	Livello bibliografico	Monografia
	Nota di contenuto	1. Introduction -- 2. On the role of questions in logic -- 3. Questions in propositional logic -- 4. Reasoning with questions -- 5. Questions in first-order logic -- 6. Questions in modal logic -- 7. Connections with intuitionistic logic -- 8. Connections with dependence logic -- 9. Conclusion.
	Sommario/riassunto	This open access book makes a case for extending logic beyond its traditional boundaries, to encompass not only statements but also also questions. The motivations for this extension are examined in detail. It is shown that important notions, including logical answerhood and dependency, emerge as facets of the fundamental notion of entailment once logic is extended to questions, and can therefore be treated with the logician's toolkit, including model-theoretic constructions and proof systems. After motivating the enterprise, the book describes how classical propositional and predicate logic can be made inquisitive—i.e., extended conservatively with questions—and what the resulting logics look like in terms of meta-theoretic properties and proof systems. Finally, the book discusses the tight connections between inquisitive
