Setting directions: leadership and strategic urban plans; 6. Conclusion: a search for better city leadership; Appendices; References; Index.
Sommario/riassunto	Leading Cities is a global review of the state of city leadership and urban governance today. Drawing on research into 202 cities in 100 countries, it offers an evidence-based and practical assessment of how cities are led, what challenges their leaders face, and the ways in which cities are increasingly connected to global affairs.
