| Titolo                  | A Guide to Responsible Research // edited by Ana Marusic   |
| Pubbl/distr/stampa      | Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023  |
| ISBN                    | 3-031-22412-4  |
| Edizione                | [1st ed. 2023.]  |
| Descrizione fisica      | 1 online resource (XIII, 135 pages) : 13 illus. in color   |
| Collana                 | Collaborative Bioethics, , 2730-5627 ; ; 1   |
| Classificazione         | MED000000MED058090PHI005000  |
| Disciplina              | 610.72   |
| Soggetti                | Medicine - Research<br>Biology - Research<br>Clinical medicine - Research<br>Medical sciences<br>Drug development<br>Bioethics<br>Medical ethics<br>Biomedical Research<br>Clinical Research<br>Preclinical Research<br>Medical Ethics   |
| Lingua di pubblicazione | Inglese  |
| Formato                 | Materiale a stampa   |
| Livello bibliografico   | Monografia   |
| Nota di contenuto       | Chap 1. Research Environment -- Chap 2. Training, Supervision and Mentoring -- Chap 3. Research Procedures -- Chap 4. Safeguards -- Chap 5. Data Practices and Management -- Chap 6. Collaborative Working -- Chap 7. Publication and Dissemination -- Chap 8. Reviewing, Evaluating and Editing -- Chap 9. How to deal with allegations of misconduct.  |
| Sommario/riassunto      | This Open Access book is a guide to good, responsible research at each step of the process of research discovery, so that a researcher at the beginning of a scientific career has a clear pathway to doing good research and producing reliable results. The textbook will give context to the practices described in the European Code of Conduct for Research Integrity, guided by the fundamental principles of research |

integrity – reliability, honesty, respect, and accountability. The chapters in the book follow the good practices outlined in the Code, give practical advice and address basic principles. In this way, the book is applicable to different research fields. It directs readers to various sources for further and updated information, particularly drawing from the resources available at The Embassy of Good Science, the European platform for research integrity and ethics.
