

1. Record Nr.	UNISALENT0991000989749707536
Autore	Maslov, V. P.
Titolo	Idempotent analysis / V. P. Maslov, Samborskii, editors
Pubbl/distr/stampa	Providence, R. I. : American Mathematical Society, c1992
ISBN	0821841149
Descrizione fisica	xi, 210 p. ; 26 cm.
Collana	Advances in soviet mathematics, ISSN 10518037 ; 13
Classificazione	AMS 16Y AMS 16Y30 AMS 16Y60 AMS 20M20 AMS 35B40 AMS 35F20 AMS 47B38 AMS 49L05 AMS 49L20 AMS 49L99 AMS 90C27
Altri autori (Persone)	Samborskii, S. N.
Disciplina	515.7
Soggetti	Asymptotic behavior of solutions Near-rings Semigroups of transformations Semirings
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia

2. Record Nr.	UNINA9910682548303321
Titolo	Emerging Ocular Infections / / edited by Careen Y. Lowder, Nabin Shrestha, Arthi Venkat
Pubbl/distr/stampa	Cham : , : Springer International Publishing : , : Imprint : Springer, , 2023
ISBN	3-031-24559-8
Edizione	[1st ed. 2023.]
Descrizione fisica	1 online resource (119 pages)
Collana	Essentials in Ophthalmology, , 2196-890X
Disciplina	617.71 617.7
Soggetti	Ophthalmology Internal medicine Internal Medicine
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Ocular Tuberculosis.-Nontuberculous Mycobacterial Infections -- Syphilis: Emerging Ocular Infections -- Fungal Infections -- Viral Retinitis -- Vector-borne Infections -- Parasitic and Other Unusual Intraocular Infections. .
Sommario/riassunto	The book offers comprehensive coverage on novel manifestations of known infections, novel infections with documented ophthalmic involvement, and the growing issue of resistance among certain infections. Filling a much-needed gap in current literary offerings, chapters approach ophthalmic manifestations of infectious disease from a novel perspective. Each chapter is co-written by an ophthalmologist and an infectious disease specialist to provide multidisciplinary insight. This unique analysis of infectious disease enhances the ability of ophthalmologists and infectious disease specialists to identify the manifold manifestations of both common and rare infections in the eye. Chapters begin with a general introduction, and each contain an Infectious Disease section, along with an Ophthalmology section. The book covers infections such as viral retinitis, fungal infections, syphilis, tuberculosis, vector-borne illnesses, and delve into rarer conditions such as unusual post-operative infections. Concise and practical, Emerging Ocular Infection

will be of use to ID specialists, and ophthalmologists alike.
