Local Development through entrepreneurship and innovation ecosystems -- 13. Tourism and development in lagging regions -- 14. Territorial Cohesion and Innovation: a needed dialogue.

Sommario/riassunto

This book examines the roles of communities in the general framework of territorial innovation, particularly in the context of less developed regions. With a specific focus on Portugal, it offers conceptual improvements that will be of use to other European regions. The book will appeal to scholars and students of regional governance and politics, from public administration to economics, sociology, geography and political science, as well as to practitioners.
