Livello bibliografico	Monografia
Nota di bibliografia	Includes bibliographical references and index.
Nota di contenuto	Chapter 1. Person, Place, and Drink: Are We Getting Closer to Understanding and Preventing Alcohol-Related Sexual Assault? -- Chapter 2. Alcohol and Sexual Assault Perpetration: Research Evidence, Gaps in our Knowledge, and Future Directions -- Chapter 3. Alcohol-Involved Sexual Aggression: Testing Mechanisms of Behavior Change. Chapter 4. Addressing Alcohol in Sexual Assault Prevention with College and Military Populations -- Chapter 5. Shifting Research Paradigms on the Alcohol-Sexual Violence Link: A Call to Action -- Chapter 6. Closing Discussions.
Sommario/riassunto	<p>This book provides a chronology of the 68th Nebraska Symposium on Motivation, which is focused on contemporary research knowledge about sexual violence and alcohol use. This book is more specific to dating and intimate partner sexual violence in young adult populations. The target audience is researchers, prevention agencies and policymakers within academia and military settings. Alcohol use has long been recognized as a major contributor to sexual assault, with an estimated 50% of sexual assaults in the U.S. involving drinking by the victim, perpetrator, or both. Beyond the usual harmful effects, alcohol-involved assaults are associated with unique sequelae for female victims, including increased self-blame, stigma, and greater alcohol use to cope. Moreover, heavier drinking on the part of the perpetrator is associated with more serious incidents of assault (e.g., involving physical force) that result in more severe outcomes for victims. The purpose of this Symposium on Motivation is to bring together a group of experts in the areas of alcohol and sexual aggression to articulate the causes, consequences, and mechanisms of alcohol-involved sexual assault. Speakers will talk about classic and contemporary research and theories on these issues using cutting-edge approaches (e.g., virtual reality, neuroscience, laboratory-based alcohol administration) from a variety of perspectives (perpetrators, victims, bystanders).</p>
