

1. Record Nr.	UNINA9910683381803321
Titolo	Emerging low-dimensional materials / / by Bo Chen, Rutao Wang, Nana Wang, editors
Pubbl/distr/stampa	Basel : , : MDPI - Multidisciplinary Digital Publishing Institute, , [2023]
ISBN	3-0365-6829-8
Descrizione fisica	1 online resource (166 pages)
Disciplina	537.623
Soggetti	Superconductivity
Lingua di pubblicazione	Inglese
Formato	Materiale a stampa
Livello bibliografico	Monografia
Sommario/riassunto	In this Special Issue, we have a great collection of 11 outstanding articles that have been published. This Special Issue presents the recent progress on emerging low-dimensional materials and could encourage their future investigations. We hope that both researchers and the community in general can benefit from the outcomes of this Special Issue reprint.
